DEGREE
Bachelor of Science in Business Administration
WALL COLLEGE OF BUSINESS ADMINISTRATION

COLLEGE MISSION
The primary mission of the Wall College of Business Administration is to offer high quality programs that meet the business education needs of our students and the community. The College of Business is dedicated to providing students with the knowledge, skills, abilities, ethics and values which are necessary for success in government, profit and nonprofit business careers. We strive to enable students to significantly contribute to the well-being and standard of living of the community. In addition, recognizing its social and economic responsibilities, the College seeks to assume a position of leadership by continually expanding its intellectual capital and providing academic resources and expertise to the community.

EDUCATIONAL OBJECTIVES
The Wall College of Business Administration recognizes the importance of providing a high quality education for its majors. Further, we recognize that a part of our responsibility is to determine how successfully we have accomplished this. For our business majors, we have identified three major content areas which we will address in terms of our curriculum and several specific objectives within that framework.

I. Perspectives
A. To provide an understanding of the political, economic, social, legal regulatory, environmental, and technological forces which influence business activities, as well as a sensitivity to ethical considerations in making one's decisions.
B. To promote an awareness of the international and culturally diverse nature of business.

II. Business Core Curriculum
A. To provide an understanding of accounting, finance, production, and marketing practices and principles.
B. To provide an understanding of general management principles and administrative skills.
C. To develop analytical and quantitative skills.
D. To develop oral and written communication proficiency.

III. Major Curriculum
To provide an emphasis in one chosen major field of study.

BUSINESS ADMINISTRATION
A maximum of 83 credits may be applied toward satisfying the Foundation Courses and Major Requirements in Business Administration.

Students must earn a grade of C or above in each course (Except English 390) used to satisfy Foundation Requirements. In addition, no more than 50 percent of the business courses used to satisfy the foundation and major requirements may be transferred from another institution.

One course labeled Writing Intensive (WI) must be taken by every student during each of the sophomore, junior and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year.

Students pursuing a business degree will be classified as pre-business students until they have been admitted to degree candidacy in the Wall College of Business. In addition to specific prerequisite courses listed, registration for junior-senior level courses are restricted to students who have earned the appropriate number of hours as specified in the Course Listing section; i.e., 54 or more hours for 300 level classes and 84 or more for 400 level classes.
Admission to Degree Candidacy
Prior to being admitted, a student must:
1. See an adviser in the Wall College of Business for guidance.
2. Have obtained an overall grade point average of 2.25 and completed a minimum of 54 semester hours including the following:
   A. Mathematics 130 or 130I, and 132 with a C average or above
   B. English 101 and 102 with a grade of C or above in each course
   C. Computer Science 105 with a grade of C or above
   D. Success Seminar for Business Majors 195 with a grade of C or above
   E. Economics 201 and 202 with a grade of C or above in each course
   F. Business Administration 201, 202, 291, and 292 with a grade of C or above in each course
3. Complete the application for admission and receive notice of acceptance into the Business Administration Program from the Dean of the Wall College of Business.

II. FOUNDATION COURSES (43-45 Credits)

   Success Seminar for Business Majors 195
   (Professional Golf Management Students must take SSPG 195)
   (Resort Tourism Management Students must take SSRT 195)...........*1-3
   Computer Science 105.............................................*3
   English 390..........................................................3
   Business Administration 201, 202.............................*6
   Business Administration 291, 292.............................*6
   Economics 201 or 202............................................*3
   Choose the course not taken to fulfill Core Curriculum requirements.
   Business Administration 344, 350, 363, 371 .......................*12
   Business Administration 393 ....................................*3
   Accounting and Finance majors substitute Business Administration 336.
   Business Administration 475, 478 ................................*6
   *A grade of C or above is required in each of these courses.

III. MAJOR REQUIREMENTS (15 - 38 Credits)

   Students are required to complete the requirements shown below for their selected major.

   A. Accounting .................................................................27
      Required of all accounting majors:
      Business Administration 330, 331, 333, 345, 439 ............15
      Accounting Majors must select one of the two options shown below and complete the requirements for the option selected.
A.1. CPA (Certified Public Accountant) Option: (choose four of the following)
  Business Administration 332, 440, 533, 535, 537 ......................... 12
A.2. CMA/CFM (Certified Management Accountant/Certified Financial Manager)
  Option: (choose four of the following)
  Business Administration 434, 460, 461, 468, Economics 335 ....... 12
B. Finance .................................................................................................................... 18
  Business Administration 460, 461, 462, 468, 469 ......................... 15
  Business Administration 463, 464, or 465 ................................. 3
C. Management ........................................................................................................ 15
  Business Administration 372, 374, 471 ........................................... 9
  Business Administration 473 or 474 .............................................. 3
  Business Administration 402 or 472 .......................................... 3
D. Management/International Tourism Option: (Choose from Two Options).. 36
  Option One allows CCU students to complete their first two
  years at CCU and study abroad during their junior year and
  return to CCU to complete their senior year.
  Option Two is designed for foreign students who have
  completed an equivalent articulation program between CCU
  and a foreign institution to transfer to CCU during the summer
  after their junior year and complete their senior year at CCU.
  Students interested in either option should request a
  Program of Study from the Program Director.
E. Management/Professional Golf Option .............................................................. 38
  Business Administration 372, 374, 471 ......................................... 9
  Business Administration 473 or 474 .......................................... 3
  Business Administration 402 or 472 .................................. 3
  Professional Golf Management 102, 201, 202, 301, 302......... 5
  Professional Golf Management 180, 280, 380, 480................. 6
  Professional Golf Management 114-114L, 169, 171, 282 ........ 12
F. Management/Resort Tourism Option .............................................................. 34
  Business Administration 357, 372, 374, 467, 471 ....................... 15
  Business Administration 401, 472, 474 (Choose Two) ............ 6
  Resort Tourism Management 282, 385, 490 ............................. 9
  Resort Tourism Management 180, 280, 380, 480 .................... 4
G. Marketing ......................................................................................................... 15
  Business Administration 351, 357, 458 ................................... 9
  Business Administration 401, 451, 453, 454 (Choose Two) ...... 6
H. Marketing/Professional Golf Option .............................................................. 38
  Business Administration 351, 357, 458 ................................... 9
  Business Administration 401, 451, 453, 454 (Choose Two) ...... 6
  Professional Golf Management 102, 201, 202, 301,302.......... 5
  Professional Golf Management 180, 280, 380, 480 ............... 6
  Professional Golf Management 114-114L, 169, 171, 282 .......... 12

Students must have a C average among the 300-400 required and selective courses
in each major.

IV. COGNATE OR MINOR REQUIREMENTS ........................................ 0

V. ELECTIVES (0-16 Credits, at least 3 non-business) ............... 0-16

TOTAL CREDITS REQUIRED .................................................. 120-128

113
DOUBLE MAJOR REQUIREMENT:
Students may double major within the business disciplines. To complete a double major, students must satisfy the major requirements in both programs. A minimum of fifteen (15) discrete hours must be earned in each major. No courses common to both majors may be shared unless the student earns at least fifteen (15) additional discrete hours for and specific to each major.

A grade of C or above is required in each course to be applied toward the minor.

Additional Admission/Graduation Requirements
Students pursuing a business degree are considered as pre-business students during the freshman-sophomore years. To be fully admitted into the Wall College of Business Administration, a student must have an overall grade point average of 2.25 and must have completed 54 credits including the following courses: Success Seminar for Business Majors 195 with a grade of C or above, Mathematics 130 or 130I, 132 (with a C average), English 101, 102, Business Administration 201, 202, 291, 292, Computer Science 105, Economics 201, 202 (with a minimum of a C in each course). Students should apply for admission during the semester in which the above requirements are being completed.

The PGA of America/Professional Golf Management (PGM) Program is an option within the Wall College of Business and requires a separate application process. PGM students major in either Management or Marketing and receive the PGM designation when they have completed their academic and PGA membership requirements. The PGA member-
ship requirements include passing the PGA's Playing Ability Test, completing 16 months of full-time internship work and completing all of the PGA's educational courses. Enrollment in the PGA program is limited, and it takes 4 1/2 years to complete. Additionally, extra fees are associated with becoming a member of the PGA of America. Only United States citizens are allowed to become members of the PGA of America.

The Wall Fellows Program is a three-semester program consisting of course work and individual study and preparation. Acceptance into the program is based on a competitive application and interview process.

In addition to specific prerequisite courses listed, registration for junior-senior level courses are restricted to students who have earned the appropriate number of hours as specified in the Course Listing section; i.e., 54 or more hours for 300 level classes and 84 or more for 400 level classes.

A grade of at least a C must be earned in each of the following courses: Business Administration 201, 202, 291, 292, 344, 350, 363, 371, 393, (or 336), 475, 478, Economics 201, 202, and Computer Science 105.

An exit examination will be administered as a part of the Business Administration 478 capstone course. The examination will be composed of a series of questions designed to measure the student's retention of key concepts drawn from the Wall College of Business Administration's curriculum.

PROFESSIONAL PROGRAM IN TEACHER EDUCATION

The chief responsibility of the Professional Program in Teacher Education in the Spadoni College of Education is to prepare teachers for early childhood, elementary, middle school, special education (learning disabilities), and physical education instruction. Students wishing to major in Secondary Education are encouraged to contact the Office of Admissions and Program Development in the Spadoni College of Education for information leading to certification through the Master of Arts in Teaching degree. It is expected that, upon graduation, majors in the various certification areas offered by the College will possess the necessary knowledge, performance behaviors, and attitudes required to facilitate learning in school-age youth. In preparation for teaching, education students must be aware that society has charged the education profession with an enormous responsibility—the care of its future through the development of its youth. Society will never allow this responsibility to be taken lightly.

CONCEPTUAL MODEL

The conceptual model of all teacher education preparation programs in the College of Education is the Teacher as Reflective Practitioner. Through this model, programs are directed toward the development of the knowledge, skills, and dispositions which will insure that all candidates are highly qualified individuals at the completion of their respective programs of study. Reflective Practitioners are seen as effective leaders, sound communicators, and competent problem solvers. As effective leaders, Reflective Practitioners conduct their professional practice confidently and proficiently, with the goal of optimum learning for all students. As sound communicators, Reflective Practitioners convey ideas lucidly, and comprehend both direct and subtle meanings, across the range of professional contexts. As competent problem solvers, Reflective Practitioners seek and analyze relevant data, and reach conclusions that lead to the implementation of meaningful learning experiences for all students. In utilizing this model, fourteen performance dimensions in five competency strands are emphasized and developed throughout the programs. These are the following strands:

I. Knowledge of Learners, Learning, and Teaching
   1. Long range planning;
   2. Short range planning;
   3. Short range planning, development, and use of assessments;
   4. Establishing and maintaining high expectations for learners
   5. Using instructional strategies to facilitate learning;
   6. Providing content for learners;
   7. Monitoring and enhancing learning;
   8. Maintaining an environment that promotes learning; and
   9. Managing the classroom.

II. Commitment to Professional Development
   10. Professional Development
   11. Skill in Research and Scholarship

III. Knowledge of and Sensitivity to Diversity
   12. Diversity

IV. Development of High Ethical Standards
   13. High Ethical Standards

V. Utilization and Integration of Technology
   14. Integration and Utilization of Technology
GENERAL DESCRIPTION
The Spadoni College of Education strives for the highest quality possible in the preparation of individuals for the profession of teaching. The College’s programs are approved by the South Carolina State Board of Education and nationally accredited by the National Council for Accreditation of Teacher Education (NCATE).
Field-based experiences and instruction, both sequential and incremental, are important components of each of the programs available. A number of elementary and secondary schools work closely with the College to help provide relevant and productive sites for field placements of education majors. These schools, known as teaching centers, collaborate with the College to provide the personnel, curriculum, and environments necessary to provide effective instruction for prospective teachers.
In addition to field-based experiences, the faculty in the teacher education programs utilize an objective-based design for course preparation and presentation. Emphasis is placed on objectives in an attempt to more clearly delineate the skills, understandings, and attitudes necessary to become a successful teacher.
When the academic program is successfully completed, students will have addressed a major requirement toward receiving a South Carolina teaching certificate. Additionally, however, before a student may be recommended for a teaching certificate, verification must be made by the Dean of the College that the student has achieved the minimum passing score on the appropriate content area Praxis II examination. As of July 1, 2006 degree candidates must pass this PLT exam prior to entering the Internship. The South Carolina State Board of Education also requires candidates to undergo a fingerprint review as a part of the application process for the Internship.

ADVISEMENT
Following full admission to Coastal Carolina University, students who wish to pursue a degree offered by the College will be assigned an adviser on the basis of their desired major and area of emphasis. Current students desiring to transfer to the SCDE should contact the Office of Admissions and Program Development for information and assistance.

GRADE STANDARDS
All programs in teacher education, health and recreation follow the prescribed grading system established by Coastal Carolina University in terms of letter grades reported. In particular, however, specific standards have been identified. These standards are as follows:
1. All students must receive the grade of C or above in English 101 and English 102.
2. All students must receive, in their respective programs of study, the grade of C or above in each course listed under the heading Major Requirements Foundation Courses and in content-aligned courses.
3. All teacher education students must have completed at least 60 hours of course work with a grade point average of at least 2.5 to be admitted to the Professional Program.

PROGRAM PROGRESSION IN TEACHER EDUCATION
All programs in teacher education follow a specifically designed sequence of courses. Education majors, working with their advisers, should check their particular programs identified in the Coastal Carolina University Catalog and advisement worksheets for specific course and program requirements. Each program has identified performance criteria which must be mastered at designated "Portals." The following program progression sequence has been established.
PRE-PROFESSIONAL PROGRAM LEVEL (Years One and Two)
During the first and second year of study, students should complete the prescribed introductory course in their education programs. Students should consult their specific programs and their advisers in order to enroll in the appropriate course at this level. The Praxis I exam must be passed and a grade point average of 2.5 should be maintained.

PROFESSIONAL PROGRAM LEVEL
1. After receiving Admission to the Professional Program (See standards for ADMISSION TO THE PROFESSIONAL PROGRAM IN TEACHER EDUCATION in this catalog), education students may enroll in professional education course work at the junior/300 level. The junior level of course work emphasizes study in growth and development of the learner, learning theory, principles of management, instruction and assessment, learning in the least restrictive environment, and a clinical field experience. Students should consult their advisers in order to enroll in the appropriate courses at this level.

2. After attaining Admission to the Professional Program and successful completion of course work at the 300 level, students may enroll in the first semester of the senior professional year of study. Study at this level investigates the areas of general instructional methodology, curriculum, reading methods, and specialized teaching methods. This series of course work also includes a specialized clinical field experience. Students will be placed in a field site with specific instructional assignments pertinent to either their grade level emphasis or subject matter specialty. Students, with the help of their advisers, should consult their specific program in order to enroll in the appropriate courses at this level.

3. The culminating experience in the student's teacher education program is the sixty-day Internship or student teaching experience. Students should check with their advisers and read the section ADMISSION TO INTERNSHIP in this catalog for specific prerequisite requirements which must be addressed prior to enrolling for study at this level.

As designed, study in the Professional Education component of the student's teacher education program is represented by a sequentially ordered series of instructional experiences. Courses should be taken in sequence, following prerequisite requirements established as the sequence develops. Students are advised that a grade of C or above must be received in each specific course in the sequence before study may be continued in each progressing level of courses. Courses in which the student receives a grade below C must be repeated prior to the student's advancing further in the Professional Program.

BACKGROUND CHECKS
All candidates for South Carolina teaching credentials must participate in a FBI fingerprint check with the results of the check being considered as a part of the application process for Internship. Additionally, all students in the Professional Program in Teacher Education are required to complete a variety of off-campus clinical experiences. Clinical placements are made at the discretion of area school districts and districts reserve the right to disapprove requests for placements for just cause as determined by the district. Background declarations are asked of all students as a part of the admission process into the Professional Program in Teacher Education. Having been convicted of a crime or pleading no contest to or forfeiting bond for a crime may result in the disapproval of a clinical placement. Questions concerning background checks, should be directed to the Dean, Spadoni College of Education.
ADMISSION TO THE PROFESSIONAL PROGRAM IN TEACHER EDUCATION

During the semester or summer session in which 60 semester hours of study are completed, students should apply to the College for Admission to the Professional Program. The following criteria are used in the application process.

1. Completion of an application for Admission to the Professional Program.
2. Completion of English 101 and 102 with a minimum grade of C.
3. Completion of Education 110, Education 115 (for Early Childhood majors), Physical Education 132 (for Physical Education majors only), or Education 116 (for Special Education majors), with a minimum grade of C.
4. Completion of Education 204 with a minimum grade of C.
5. Completion of at least 60 semester hours of study with a Grade Point Average (GPA) of at least 2.5, to be maintained for admission to the Internship.
6. Receipt of passing scores on ALL portions of the Pre-Professional Skills Test (PPST) with Item Analysis submitted.
7. Submission of two letters of recommendation from university professors outside the Professional Program in Teacher Education and one letter of recommendation from a SCDE professor.
8. Completion of an assigned essay.

Students may and are encouraged to take the PPST during the first or second year of study. Information concerning registration for the PPST may be obtained in the Office of Admissions in the Spadoni College of Education. Education majors must have received Admission to the Professional Program before they may register for professional education courses offered through the Spadoni College of Education numbered at the 300 level or above.

Admission to the Professional Program is based on a consideration of each student’s academic achievement, professional dispositions, and personal characteristics. Students after the passage of 60 hours should make application to the Professional Program, submitting this to the Assistant to the Dean for Program Admissions. Applicants and their advisers are notified in writing of the action of the application process. Students may wish to consult the Spadoni College of Education Teacher Education Handbook for a detailed description of the required criteria and procedures.

ADMISSION TO INTERNSHIP (STUDENT TEACHING)

Any student who plans to enroll in the sixty-day teaching internship must apply for an internship placement with the Director of Clinical Placements. During this sixty-day teaching field experience, interns observe the academic calendar of the teaching center to which they are assigned. For further information concerning this program component consult the Internship Handbook in the main office of the College.

The internship experience is open to any student who:

1. Has formally applied for an internship placement by the stipulated deadline;
2. Has completed a minimum of 90 credits in the program of study and has received admission to the Professional Program;
3. Has successfully completed the pertinent Major Requirements and identified Foundation Courses which precede the internship, with a minimum grade of C in each course in the sequence;
4. Has earned a grade point average of no less than 2.5 in all course work taken prior to the internship semester;
5. Has successfully completed at least 75% of all course work in the Major Requirements area with a minimum grade of C in each course;
6. Has received a positive recommendation from the adviser regarding the readiness for entering the internship;
7. Has successfully passed the content or subject area examination(s) of the Praxis II with Item Analysis submitted.
8. Successful completion of Senior level candidate competency portfolio.
9. Successful completion of all field experiences prior to the internship.

While enrolled in the internship semester, students will spend all of each school day for a period of no fewer than sixty instructional days in the assigned teaching center. Students are prohibited from enrolling in any additional course work during this semester without the consent of the Dean of the College.

Note: Beginning July 1, 2006, applicants to the Internship must have passed the Praxis II-PLT as well.

EARLY CHILDHOOD, ELEMENTARY, MIDDLE GRADES EDUCATION, PHYSICAL EDUCATION, AND SPECIAL EDUCATION

EARLY CHILDHOOD EDUCATION (Pre K-3) MAJOR

This major satisfies the educational requirements for South Carolina certification in Early Childhood Education in grades Pre K-3.

Students must earn a grade of C or above in each course used to satisfy Major Requirements, all education courses in the Foundation Courses section, as well as English 101 and 102 and Mathematics 201 and 202.

One course labeled Writing Intensive (WI) must be taken by every student during each of the sophomore, junior, and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year. In addition, one course labeled Computer Usage (CU) must be successfully completed by every student before graduation. Education 204 is required and meets this requirement.

Suggested semester sequences of courses are available.

**ELEMENTARY EDUCATION (2-6) MAJOR**

This major satisfies the educational requirements for South Carolina certification in  
Elementary Education in grades 2-6.

Students must earn a grade of C or above in each course used to satisfy Major Require-  
ments, all education courses in the Foundation Courses section, as well as English 101 and  
102 and Mathematics 201 and 202.

One course labeled Writing Intensive (WI) must be taken by every student during each  
of the sophomore, junior, and senior years. English 101 and 102 are designated as writing  
intensive courses in the freshman year. In addition, one course labeled Computer Usage  
(CU) must be successfully completed by every student before graduation. Education 204  
is required and meets this requirement.

Suggested semester sequences of courses are available.

  Internship: Eligibility based on completion of prerequisite courses in
  the sequence, a passing score on the content/subject area examination
  of the Praxis II, and fingerprint clearance. Beginning July 1, 2006,
  Praxis II-PLT must also be passed prior to Internship approval.

IV. COGNATE ................................................................. 12

All cognate courses must be approved by the student’s adviser. Courses
may be chosen from health; humanities (art/graphics, history, music);
languages (English, French, German, Spanish); mathematics and/or
computer science; science (biology, marine science, physics, chemistry,
geology); social studies (geography, political science, anthropology,
sociology, economics, psychology). No courses satisfying the core
education or teaching specialization requirement may be applied toward
the cognate.

TOTAL CREDITS REQUIRED ........................................ 128-134

MIDDLE GRADES (5-8) EDUCATION

EDUCATIONAL OBJECTIVE

Middle Grades Education is a course of study intended to meet South Carolina stan-
dards for Certification at this level. Coastal Carolina's program has been approved by the
State Board of Education.

PHYSICAL EDUCATION

Students pursuing the major in Physical Education may elect to enter the Physical Education program leading to teacher certification in Physical Education or the Physical Education program emphasizing the field of Recreation and Sport Management without teacher certification. The faculty in Physical Education/Teacher Education are dedicated to the professional preparation of students as they pursue careers in teaching Physical Education, Pre K-12. The faculty in Recreation and Sport Management are dedicated to preparing students in management based careers in sport, recreation, coaching, fitness, or related physical activity programs. For information regarding teacher certification in physical education contact the Office of Admissions and Program Development in the Spadoni College of Education.

PHYSICAL EDUCATION EMPHASIS WITH TEACHER CERTIFICATION (Pre K-12)

Students interested in becoming teachers of Physical Education should begin by contacting the Chair of the Department of Health, Physical Education, and Recreation in the Spadoni College of Education, and planning their programs as early as possible. An adviser will be assigned from the faculty in Physical Education Teacher Education. Admission to the Professional Program in teacher education is not an automatic process. Formal application must be made for admission. Students should refer to the section ADMISSION TO THE PROFESSIONAL PROGRAM described earlier in this catalog. Admission to the Internship, the culminating directed teaching experience in the student’s program, must also be applied for formally. Students should refer to the section ADMISSION TO INTERNSHIP described earlier in this catalog for regulations regarding this program component.

Objectives of the Physical Education Program are as follows:

1. Demonstrate an understanding of the intellectual, social, emotional, and physical characteristics of kindergarten through twelfth grade level students.
2. Demonstrate the ability to plan and implement a physical education curriculum consistent with the needs of the school and community.
3. Demonstrate the skills and knowledge needed to teach physical education, including but not limited to, knowing the basic anatomical structure of the body and its related concepts, administering physical fitness tests and computing the resultant data, adjusting instruction to various handicapping conditions, and planning exercise programs based upon sound physiological theory.
4. Demonstrate effective instructional skills in the areas of health and physical education, using a wide variety of teaching strategies, through peer teaching and practicum situations.
5. Demonstrate an ability to group and instruct students with varying rates, abilities, and styles of learning and appropriate evaluative techniques for kindergarten through twelfth grade levels.
6. Demonstrate the ability to adapt physical activity instruction to learners with special or exceptional needs.
7. Demonstrate a variety of motor skills to enhance proficiency in personal performance and subsequent curriculum development.
8. Demonstrate managerial leadership in the organization and administration of the school health, physical education, intramural, extramural, and athletic programs.
9. Demonstrate a knowledge of the history of kindergarten through twelfth grade education in the United States, as this relates to physical education.
10. Demonstrate the ability to function successfully in a public school setting in the physical education Internship experience.

PHYSICAL EDUCATION TEACHER EDUCATION MAJOR

This major satisfies the educational requirements for South Carolina certification in Physical Education in grade Pre K-12.

Students must earn a grade of C or above in each course used to satisfy Major Requirements and English 101 and 102.

One course labeled Writing Intensive (WI) must be taken by every student during each of the sophomore, junior, and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year. In addition, one course labeled Computer Usage (CU) must be successfully completed by every student before graduation.

RECREATION AND SPORT MANAGEMENT MAJOR

Students interested in emphasizing the area of recreation and sport management should begin by contacting the Chair of the Department of Health, Physical Education, and Recreation in the Spadoni College of Education and planning their program of study as early as possible.

Students in this program focus on recreation or sport management as a specialized professional field of study. This emphasis provides the basis for supervisory and administrative positions with federal, state, and local leisure service or sport agencies, as well as commercial recreation, sport, and tourism agencies, university student unions and/or intramural sport programs, nursing homes, churches, private voluntary agencies, armed services, and any other delivery system providing recreation or sport services. Admission to the Professional Program in Recreation and Sport Management is not an automatic process; formal application must be made for admission. For information regarding admissions procedures, students should consult the Program Coordinator or department chair. Admission to the Internship, the culminating managerial experience in the student's program, must also be applied for formally.

The objectives of the Recreation and Sport Management emphasis develop the following competencies in the student:

1. Knowledge and understanding of the principles and philosophy underlying the field of recreation, sport, and leisure management.
2. Managerial skills in the areas of personnel, budgeting, scheduling, legal aspects, promotion, program evaluation, decision making, and problem solving.
3. Knowledge of facilities planning, risk management, equipment purchasing, repair, and maintenance.
4. Skills in needs assessment, marketing, and public relations necessary to promote and program recreational and sport activities.
5. Skills in leadership and leisure counseling, crisis confrontation, and resolution of problems concerning participants, parents, club members, personnel, etc.
6. Working with special populations, such as the aged, the physically and/or mentally challenged, and the disadvantaged.
7. Knowledge of the purpose, basic procedures, and the interpretation and application of research related to recreation, leisure, and sport services.

Students must earn a grade of C or above in each course used to satisfy Major Requirements and English 101 and 102.

One course labeled Writing Intensive (WI) must be taken by every student during each of the sophomore, junior, and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year. In addition, one course labeled Computer Usage (CU) must be successfully completed by every student before graduation.

HEALTH PROMOTION

EDUCATIONAL OBJECTIVES: HEALTH PROMOTION

The objectives of the Health Promotion major include, but are not limited to, the following:
1. to assess individual and community needs for health education and promotion.
2. to plan for effective health education and promotion programs through demonstra-
tion of effective communication, selection of appropriate scope and sequence, and formulation of measurable program objectives.

3. to exhibit competence in implementing health education programs through proper planning, application of suitable methods and media, and adjustment of objective and activities as necessary.

4. to effectively evaluate health education and promotion programs.

5. to demonstrate competence in conducting research in the health field.

6. to act as a resource person in health education and promotion.

7. to effectively communicate health education and promotion needs, concerns, and resources.

HEALTH PROMOTION MAJOR

Students interested in the Health Promotion major should begin by contacting the Chair of the Department of Health, Physical Education, and Recreation in the Spadoni College of Education and planning their program of study as early as possible.

A major in health promotion offers students the opportunity to explore the art and science of helping people change their lifestyle to move toward a state of optimal health. Lifestyle changes may be facilitated by enhancing awareness, changing behavior, or creating environments that support better health practices. Students will be prepared for advanced degree study in health science or for employment in a variety of health service-related settings such as local, state, national, international, and voluntary health agencies, in wellness programs within business and industry, in medical facilities, or in private consultation. Completion of the program also qualifies students to apply for certification through the National Commission for Health Education Credentialing, Inc. (NCHEC) as a Comprehensive Health Education Specialist (CHES).

Students must earn a grade of C or above in each course used to satisfy Major Requirements, Cognate Requirements, and Minor Requirements. A grade of C or above is required in English 101 and 102.

One course labeled Writing Intensive (WI) must be taken by every student during each of the sophomore, junior, and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year. In addition, one course labeled Computer Usage (CU) must be successfully completed by every student before graduation.

Students who intend to earn a degree in Health Promotion must be accepted as degree candidates pursuing a major course of study in Health Promotion.

Admission to Degree Candidacy

Students interested in the program should declare their interest in the Health Promotion major at the time of admission to the University. Prior to full admittance to the program, a student must:

- See an adviser in the Health Promotion program for guidance,
- Complete Health Education 121 and 201 with a grade of C in each course,
- Have completed a minimum of 45 semester hours with an overall grade point average of 2.25, to be maintained for admission to the Internship,
- Complete an application for admission to the Health Promotion program and receive notice of acceptance.

IV. COGNATE OR MINOR REQUIREMENTS

Health Promotion majors will select a minor or interdisciplinary cognate of upper level courses (300-400 level) or basic science credits in biology, chemistry, or physics, drawn from outside their major with the approval of their faculty adviser. A grade of C or above is required in each course to be applied toward the degree.

V. ELECTIVES (5 CREDITS)

Five credits of approved electives

TOTAL CREDITS REQUIRED

123-132

HEALTH PROMOTION MAJOR WITH SPORTS MEDICINE EMPHASIS

Students selecting the Health Promotion Degree with a Sports Medicine Emphasis have the opportunity to explore health promotion and also the growing field of sports medicine/athletic training. Although students in this program will develop skills in the areas of prevention, evaluation, care, and rehabilitation of athletic injuries, completion of this emphasis does not qualify students to sit for the National Athletic Trainers Association (NATA) exam; further study at the undergraduate or graduate level at a NATA approved program will be necessary.

Completion of the program does qualify students to apply for certification through the National Commission for Health Education Credentialing, Inc. (NCHEC) as a Comprehensive Health Education Specialist (CHES).

Students must earn a grade of C or above in each course used to satisfy Major Requirements, Cognate Requirements, and Minor Requirements. A grade of C or above is required in English 101 and 102. A grade of C or above in English 101 is a prerequisite for English 102.

One course labeled Writing Intensive (WI) must be taken by every student during each of the sophomore, junior, and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year. In addition, one course labeled Computer Usage (CU) must be successfully completed by every student before graduation.

Students who intend to earn a degree in Health Promotion with a Sports Medicine Emphasis must be accepted as degree candidates pursuing a major course of study in Health Promotion/Sports Medicine.

Admission to Degree Candidacy

Students interested in the program should declare their interest in the Health Promotion/ Sports Medicine Emphasis program at the time of admission to the University. Prior to full admittance to the program, a student must complete the following:

- See an adviser in the Health Promotion program for guidance,
- Complete Health Education 121 and 201 with a grade of C in each course,
- Have completed a minimum of 45 semester hours with an overall grade point average of 2.25, to be maintained for admission to the Internship,
- Complete an application for admission to the Health Promotion/Sports Medicine major and receive notice of acceptance.

A grade of C or above is required in each course to be applied toward the degree.

V. ELECTIVES ............................................................................... 4

TOTAL CREDITS REQUIRED: ......................................................... 123-132

HEALTH PROMOTION MINOR

Students interested in pursuing the Health Promotion minor should begin by contacting their adviser or the Chair of the Department of Health, Physical Education, and Recreation and planning their program of study as early as possible. The minor should be determined in consultation with the student's major adviser. A student must earn a C or above in all courses to be applied toward the minor in Health Promotion. Students interested in pursuing teacher certification in Health should contact the program Coordinator for information regarding course requirements for health certification in South Carolina.

SPORTS MEDICINE MINOR

This minor is designed as preparation for students seeking careers in the field of sports rehabilitation. Courses within this minor will assist students in developing the skills essential to conduct programs dealing with prevention, evaluation, care and rehabilitation of athletic injuries. Although students in this program will develop skills in the areas of prevention, evaluation, care, and rehabilitation of athletic injuries, completion of this minor does not qualify students to sit for the National Athletic Trainers Association (NATA) exam; further study at the undergraduate or graduate level at a NATA approved program will be necessary.

Students minoring in Sports Medicine must earn a C or above in each course to be applied toward the minor.

DEPARTMENT OF ENGLISH AND JOURNALISM

EDUCATIONAL OBJECTIVES
Students who complete the requirements for a degree in English will be able to:

1. Demonstrate a familiarity with a canon of texts and a lexicon of literary terms, each list provided by English Department consensus.
2. Demonstrate an ability to write essays, both formal and informal, that reflect a proficient use of academic research skills and rhetorical conventions.
3. Demonstrate an ability to read and analyze, both orally and in writing, texts from the four major literary genres - fiction, poetry, drama, and creative non-fiction.
4. Demonstrate knowledge of the cultural or historical context of major literary texts.
5. Demonstrate an understanding of the characteristics of the linguistic system and the historic development of language.
ENGLISH MAJOR
Students majoring in English may select from one of two tracks: the literature track or the technical and professional writing track. Students opting for the literature track, in addition to meeting course requirements, must score a passing grade on the English Assessment Examination.

A maximum of 45 credits may be applied toward satisfying the Foundation Courses and Major Requirements in English.

Students majoring in English must earn a grade of C or above in all English courses.

One course labeled Writing Intensive (WI) must be taken by every student during each of the sophomore, junior and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year. In addition, one course labeled Computer Usage (CU) must be successfully completed by every student before graduation.

IV. COGNATE OR MINOR REQUIREMENTS ........................................... 12

Cognate courses are courses drawn from outside the major, but intended to support the major. Cognate courses must be upper level (junior-senior) courses, must be related to the student’s major, and must be approved by the student’s adviser. Courses for cognate credit may be drawn from one or more departments. A minimum grade of C or above is required in all cognate or minor courses. Students may substitute an approved minor course of study for the cognate requirement.

V. ELECTIVES .............................................................................. 11-19

*Students in the Technical and Professional Writing Track are strongly urged to take additional courses in graphic design and computer science and the internship in technical and professional writing (English 495) as electives.

TOTAL CREDITS REQUIRED 120

ENGLISH MINOR Credits

One 300-400 level course in pre-1660 British literature ........................................... 3

TOTAL CREDITS REQUIRED 21

A grade of C or above is required in each course to be applied toward the minor.

JUNIOR YEAR ABROAD PROGRAM

English majors may elect to spend one semester abroad for credit. Students will earn up to 15 hours of credit for one semester at University College Northampton, England. Credits thus earned may be used as cognates and/or electives.

Students enrolled in this program will pay Coastal Carolina University tuition and room and board. Students are responsible for the costs of their own travel. Financial aid is available.

Participation in the exchange is competitive. Students who are interested should contact the Chair of the Department of English early in their program of study.

EXEMPTION FROM THE ENGLISH REQUIREMENTS

A student who scores 620 or higher on the verbal section of the CEEB Scholastic Aptitude Test is exempt from English 101 and may enroll in English 102. Upon successful completion of 102, the student will receive credit, without a grade, for English 101.

DEPARTMENT OF FOREIGN LANGUAGES

EDUCATIONAL OBJECTIVES

1. To enable all University students to fulfill the Foreign Language core curriculum requirement by successfully completing the 130 course in French, German, Japanese, Spanish, or Latin.
2. To develop an appreciation and knowledge of the various aspects of the cultural traditions associated with French, German, Japanese, Spanish, or Latin and to provide a basis for cultural comparison.
3. To give students the opportunity to further develop skills in speaking, writing, reading, and comprehension in French, German, Japanese, Spanish, or Latin.
4. To give students the opportunity to further develop an appreciation and knowledge of the literary and cultural traditions associated with French, German, Japanese, Spanish, or Latin.

5. To promote student participation in study abroad programs as well as in non-English speaking communities in the United States, and

6. To promote close contact with other disciplines and to collaborate with other existing and developing University programs to prepare students to successfully compete for employment in the global economy

GENERAL INFORMATION

The foreign language requirement in all programs at Coastal Carolina University can be satisfied by successful completion of French 130, or German 130, or Japanese 130, or Spanish 130, or Latin 130. Foreign language courses numbered 110 and 120 or 111 or the equivalent are prerequisites for enrollment in 130.

PLACEMENT

In order to demonstrate proficiency in a foreign language, a student must successfully complete the 130 or a higher level course in French, German, Spanish, or Latin. The student also has the option to take Japanese 110 at Coastal and successfully complete the 130 equivalent by participating in Coastal's exchange program with Tokyo Denki University.

Starting a New Language

Students who wish to start a new language should register for a 110 course.

Placement in French, German, or Spanish (for continuing students):

All first-time students who wish to continue with French, German, or Spanish must take the Placement Test that is administered on the World Wide Web. All students continuing in one of these languages are expected to take the exam before coming to Coastal. (It takes between 10 and 30 minutes to complete.) Students can take the test by going to the web site www.coastal.edu/advising/ptest.html and following the links to the particular test. The student's user name is coastal and the password is teal. All first-time students must clarify their language placement status during Orientation or their initial registration. Any questions should be directed to the Foreign Language Instructional Center (FLIC) at 349-2478.

Students who place above the 130-level on the Spanish Placement Exam:

• and wish to enroll in a Spanish course numbered higher than 130 must re-take the Placement Exam by appointment at the Foreign Language Instructional Center (349-2478). A departmental recommendation concerning placement will then be made based on these scores.

• and wish to receive credit for 130 or above must take the College Level Examination Program (CLEP) that is administered at Coastal’s Academic Testing Center (349-4004).

Placement in Latin or Japanese (for continuing students)

Students who wish to continue with either Latin or Japanese and have had two years of that language in high school with an average grade of “B” or better should register for 120. Entering students with three years of high school preparation with a "B" or better average may go directly into 130. Students who wish to continue with Japanese are encouraged to participate in Coastal's exchange program with Tokyo Denki University in Japan.

Special Cases: Exemption for Non-Native English Speakers

Students whose native language is other than English and who have scored either 500 on the paper-based or 173 on the computer-based Test of English as a Foreign Language
(TOEFL), are exempt, without credit, from Coastal’s language requirement.

English speaking students with transferable credits in a foreign language or who can demonstrate native or near-native proficiency in a language other than English are also exempt, without credit, from this requirement.

All exemptions must be approved by the student’s college Dean and by the Chair of the Department of Foreign Languages.

**Important:** All students (except transfers) are expected to complete the 130 requirement by the end of their sophomore year.

**SPANISH MAJOR**

One course labeled Writing Intensive (WI) must be taken by every student during each of the sophomore, junior and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year. In addition, one course labeled Computer Usage (CU) must be successfully completed by every student before graduation.

III. MAJOR REQUIREMENTS (27 Credits)
A grade of "C" or above is required in all Spanish courses.
Spanish 320, 321, 323 (Choose one) ........................................................................ 3
Spanish 330, 333 (Choose one) .............................................................................. 3
Spanish 340 ............................................................................................................... 3
Spanish 350, 351 (Choose one) ............................................................................... 3
Spanish 360, 380 (Choose one) ............................................................................... 3
Spanish 410 ............................................................................................................... 3
Spanish 411 ............................................................................................................... 3
Spanish 430, 431 (Choose one) ............................................................................... 3
Spanish 480 ............................................................................................................... 3

IV. COGNATE OR MINOR REQUIREMENTS (12-14 Credits)

V. ELECTIVES (15-25 Credits)
English 451 is recommended and should be taken one semester before Spanish 410

TOTAL CREDITS REQUIRED 120

FOREIGN LANGUAGE MINORS
The minor is intended for non-native speakers of the language in question.
At least 6 credit hours of the minor courses must be taken at Coastal; some of the requirements for the minor may be met through study abroad.
Students minoring in a foreign language must earn a C or above in each course to be applied toward the minor.

SPANISH MINOR
The Spanish Minor at Coastal Carolina University requires a total of 12-15 hours above the 210 level. The following courses are required.

Prerequisites:
Spanish 110 and 120, or 111, or the equivalent ...................................................... 0-6
Spanish 130 and 210, or the equivalent ................................................................. 3-6

Spanish Minor Core
Twelve to fifteen (12-15) credits of advanced Spanish above 210 to include:
  a. Spanish 211 ..................................................................................................... 3
  b. Spanish 321, 323, 330, or 333 (Choose one) ................................................. 3
  c. Spanish 340 ..................................................................................................... 3
  d. One to two Spanish electives above Spanish 329 ......................................... 3-6

NOTE: Spanish 350 or Spanish Language Study Abroad may be applied to the minor for 3-6 credit hours.

TOTAL CREDITS REQUIRED 18-27*
*Depending on entry-level placement

Spanish 399 may not be used to satisfy the Minor Core
FRENCH MINOR

Credits

Prerequisites:
French 110, 120, or 111, or the equivalent ................................................. 0-6
French 130 and 210, or the equivalent ................................................... 3-6

French Minor Core
Twelve credits of advanced French above 299 to include:
   a. French 310 .................................................................................. 3
   b. French 311 .................................................................................. 3
   c. French 400 or 401 ....................................................................... 3
   d. One French elective above French 299 ................................. 3

TOTAL CREDITS REQUIRED ................................................................ 24*
*Depending on entry-level placement

French 399 may **not** be used to satisfy the French minor Core.

GERMAN MINOR

Credits

Prerequisites:
German 110, 111, or 120, or the equivalent ................................................. 0-6
German 130 and 210, or the equivalent ................................................... 3-6

German Minor Core
Twelve credits of advanced German above 299 to include:
   a. German 310 .................................................................................. 3
   b. German 311 .................................................................................. 3
   c. German 400 or 401 ....................................................................... 3
   d. One German elective above German 299 ................................. 3

TOTAL CREDITS REQUIRED ................................................................ 24*
*Depending on entry-level placement

German 399 may **not** be used to satisfy the German Minor Core.

DEPARTMENT OF HISTORY

EDUCATIONAL OBJECTIVES

1. History majors will complete successfully the Core Curriculum as prescribed in the University Catalog for the appropriate year.
2. Each history major will be generally aware of global historical developments.
3. History majors will establish a concentration in either European or United States history, or a combination of the two.
4. History majors will undertake some upper level course work in a non-Western area.
5. History majors will demonstrate a substantially greater knowledge of history than can a similar group of non-history majors.
6. History majors will exhibit a general awareness of the major philosophical and methodological problems facing the historical investigator.
7. History majors will be able to conduct standard historical investigations, including the identification and research of primary sources.
8. History majors will be able to present the results of standard historical investigations in acceptably written, formal papers.
HISTORY MAJOR

A maximum of 33 credits may be applied toward satisfying the Foundation Courses and Major Requirements.

Students majoring in history must earn a grade of C or above in all history courses.

One course labeled Writing Intensive (WI) must be taken by every student during each of the sophomore, junior and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year. In addition, one course labeled Computer Usage (CU) must be successfully completed by every student before graduation.

I. CORE CURRICULUM (44-52 Credits) Credits

English 101, 102 .................................................................6
Foreign Language (through 130) .............................................3-9
History 101, 102 (Should be completed during the freshman year) ...............6
Mathematics - Choose one of the following options .........................6-8
  OPTION I
  Choose a set of the following:
  Mathematics 101-102; 130 or 130I-131; 130 or 130I-132; 130 or
  130I-160; 131-160; 160-161
  OPTION II
  Choose one:
  Mathematics 130, 130I, 131, 132, 160, 161
  AND
  Choose one:
  Statistics 201/201L, Psychology 225, Business Administration 291
  Art History 105 or 106, Music 110, Philosophy 101, Religion 103, Theater 101
  (Choose one) ....................................................................3
  English 275, 276, 287, 288 (Choose one) ................................3
  (English 287 is recommended for students majoring in United States
  history; English 275, 276, or 288 is recommended for students majoring
  in European history.)
  Politics 201 ........................................................................3
  Geography 121, Economics 101, 201, 202, Politics 101, 102 (Choose one) ....3

  Physics 102, 201, 202, 211 or 212; Science 101.

II. FOUNDATION COURSES (9 Credits)

Theater 140 ........................................................................3
History 201, 202 ..................................................................6
(Should be completed during the sophomore year)

III. MAJOR REQUIREMENTS (24 Credits)

History 300 .........................................................................3
History 300 level or above ......................................................21

Students may concentrate in either European or United States history
but must complete 6 credits of history at the 300 level or above outside
their field. Students concentrating in European history must earn at least
three credits in United States history at the 300 level or above. Students
concentrating in United States history must earn at least three credits in
European history at the 300 level or above. The remaining credits outside
a student’s field may be earned in Asian or Middle Eastern history (300 level or above).

IV. COGNATE OR MINOR REQUIREMENTS .................. 12-24

Cognate courses are courses drawn from outside the major but intended to support the major. Cognate courses must be upper level (junior-senior) courses, must be related to the student’s major, and must be approved by the student’s adviser. Courses for cognate credit may be drawn from one or more departments. A grade of C or above is required in all cognate or minor courses.

V. ELECTIVES (12-30 Credits) .............................. 11-31

History 499 (Senior Thesis) is optional. History majors should apply through the Chair of the Department. Only selected seniors will be admitted. Primary criteria are an outstanding academic record, the ability to write clearly, and a genuine desire to attend graduate school.

24

A student must earn a grade of C or above in all courses to be applied to the minor in History.

DEPARTMENT OF PERFORMING ARTS

MUSIC MAJOR

EDUCATIONAL OBJECTIVES

The Music Program is dedicated to developing graduates who are well versed as musicians, teachers, performers, composers, and scholars. Mastery of these media allow graduates to contribute to their craft through performances, works, and ideas of integrity. Through programs and associated activities, graduates will:

1. develop the musical understandings, performance abilities, and creative and critical skills of all music students.
2. develop their own knowledge, understanding, and ability in all aspects of music at the undergraduate level.
3. develop performance skill and teacher training through distinguished instruction and outstanding performance opportunities.
4. develop the pedagogical insights and communicative skills of prospective teachers, and
5. develop a high degree of professionalism in scholarship and in performance.

A grade of C or above is required in each course to be applied toward the minor.

DRAMATIC ARTS MAJOR

EDUCATIONAL OBJECTIVES
Dramatic Arts students are expected to:
1. acquire and demonstrate an understanding of the historical and cultural dimensions of theater, including a familiarity with influential playwrights, actors, directors, and designers,
2. demonstrate a competence in a number of theater techniques,
3. acquire and demonstrate an understanding of basic production processes such as acting; directing; stage, costume, and lighting design; and basic technical operations,
4. show a commitment to public performance in the theater,
5. demonstrate an understanding of critical methods for evaluating contemporary thinking about theater and related arts,
6. make informed assessments about quality in public performance, and
7. manifest creative talents in the theater arts.

A maximum of 55 credits may be applied toward satisfying the Foundation Courses and Major Requirements in Dramatic Arts. A grade of C or better must be earned in each of these courses.

One course labeled Writing Intensive (WI) must be taken by every student during each of the sophomore, junior and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year. In addition, one course labeled Computer Usage (CU) must be successfully completed by every student before graduation.

   Theater 478, Play Direction I

TOTAL CREDITS REQUIRED ................................................................................................ 21

A grade of C or above is required in each course to be applied toward the minor.

MUSICAL THEATER MAJOR

EDUCATIONAL OBJECTIVES
Musical Theater students are expected to:

1. acquire and demonstrate an understanding of the historical and cultural dimensions of musical theatre, including a familiarity with influential works and actors, dancers, directors, designers, and singers;
2. acquire and demonstrate sound technique in vocal production, acting and dance in a variety of styles and formats;
3. acquire and demonstrate a basic understanding of production processes including those in technical theatre and production;
4. demonstrate an understanding of methods for evaluating the elements of musical theatre; and
5. develop the ability to analyze and critique performances both orally and in writing.

To achieve these educational objectives, the musical theater program offers a focused undergraduate theater curriculum in theater, music, and dance. While some courses within the program allow extended and specialized study for majors, the chief goal of the program is to foster a broad understanding and appreciation of the theatrical enterprise.

A maximum of 64 credits may be applied toward satisfying the Foundation Courses and Major Requirements in Dramatic Arts. Students must earn a grade of C or above in each course used to satisfy the Musical Theater major and pass a keyboard proficiency exam as outlined in the Music Handbook.

One course labeled Writing Intensive (WI) must be taken by every student during each of the sophomore, junior and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year. In addition, one course labeled Computer Usage (CU) must be successfully completed by every student before graduation.

DEPARTMENT OF PHILOSOPHY AND RELIGION

EDUCATIONAL OBJECTIVES

As a community of scholars, teachers and learners, the Department of Philosophy and Religion seeks:
1. to provide an environment that will encourage students to create and attain vital learning experiences.
2. to instill in students an understanding of the basic questions of Philosophy and Religion.
3. to acquaint students with the thoughts and theories of the major philosophers.
4. to equip students to think, live, recognize value and contribute within the ever-changing world culture.
5. to offer courses that are compatible with and contribute to the aims of other departments.

EDUCATIONAL OBJECTIVES FOR PHILOSOPHY MAJORS

Students who complete the requirements for a degree in Philosophy will exhibit the following competencies:
1. Acquaintance with the major philosophers and their ideas, including ancient philosophers, medieval thinkers, modern (18th and 19th century) philosophers, and the main philosophical developments of the 20th century.
2. Ability to engage the philosophical problems of knowledge, mind and reality, language, religion, and science; including the ability to apply analytic methods to these problems.
3. A sound grounding in the discipline of logic, including linguistic analysis, formal reasoning and inferential systems such as the syllogism and symbolic logic, and artificial languages.
4. Experience in applying philosophic analysis in solving concrete problems of human experience in areas including business, the environment and medicine, through the understanding of a wide array of ethical theories.

PHILOSOPHY MAJOR

One course labeled Writing Intensive (WI) must be taken by every student during each of the sophomore, junior and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year. In addition, one course labeled Computer Usage (CU) must be successfully completed by every student before graduation.

I. CORE CURRICULUM (44-52 Credits) .............................................................. Credits

Ethics Requirement:
Philosophy 311 and (Choose one) 305, 317, 318 or 319 ............................... 6
Philosophy 490 ....................................................................................................... 3

Electives:
Two Philosophy courses numbered 300 or above ............................................. 6

IV. COGNATE OR MINOR REQUIREMENTS (12-24 Credits)
Cognate courses are courses drawn from outside the major but intended to support the major. Cognate courses must be upper-level (junior-senior) courses, must be related to the student's major, and must be approved by the student's adviser. Courses for cognate credit may be drawn from one or more departments. A grade of C or above is required in all cognate or minor courses.

V. ELECTIVES (5-25 Credits)

TOTAL CREDITS REQUIRED 120
PHILOSOPHY MINOR

Credits

Philosophy 110, Introduction to Logic I  OR
Philosophy 300, Ancient Philosophy ................................................................. 3
Philosophy 301, Modern Philosophy ................................................................. 3
Philosophy 321, Symbolic Logic ......................................................................... 3
Choose one of the following:
Philosophy 305, 311, 317, 318, 319 ................................................................. 3
or 311, Ethical Theory
or 317, Bio-Medical Ethics
or 318, Business Ethics
or 319, Environmental Ethics ........................................................................... 3
Two Philosophy electives .................................................................................... 6

TOTAL CREDITS REQUIRED 18

A grade of C or above is required in each Philosophy course to be applied toward the major or minor.

For information regarding interdisciplinary philosophy and religion studies at Coastal, refer to the Interdisciplinary Studies section of this catalog.

DEPARTMENT OF POLITICS AND GEOGRAPHY

EDUCATIONAL OBJECTIVES
1. The student will gain knowledge of the major methodological controversies in the discipline.
2. The student will gain knowledge of the most significant schools of thought with regard to defining the scope of the discipline.
3. The student will gain knowledge of the constitutional foundation and institutional structure of American government.
4. The student will gain knowledge of the philosophic tradition of political science and the great thinkers.
5. The student will gain knowledge of organizational and managerial principles in the public sector.
6. The student will gain knowledge of how the American political system compares with selected other systems.
7. The student will gain knowledge of the ways in which nations of the world interact politically, diplomatically, economically, and militarily.

POLITICAL SCIENCE MAJOR

Political Science is a liberal arts major designed to introduce students to the enduring questions of politics and the institutions and political life of America and other regions and countries of the world. Students successfully completing the undergraduate program in Political Science will be competitive for positions in the private and public sectors for which a general undergraduate baccalaureate degree is considered an entry level requirement. Students who complete the undergraduate program with a high degree of success will be prepared for graduate work in Political Science or law school.

A maximum of 30 credits may be applied toward satisfying Foundations Courses and Major Requirements.

Students majoring in Political Science must earn a C or above in each course used to satisfy Major Requirements.
One course labeled Writing Intensive (WI) must be taken by every student during each of the sophomore, junior and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year. In addition, one course labeled Computer Usage (CU) must be successfully completed by every student before graduation.

Students who wish to pursue a degree in Political Science must conform to the following departmental regulations:

1. Students must register with the Department by consulting the departmental secretary and/or the Chair of the Department to be counseled and to be assigned an adviser.
2. Students with prior college work will not be accepted into the department unless, in the view of the Chair, their previous work suggests the ability to perform at the standard demanded by the Department. In general, this will mean at least a C average in previous work.
3. To remain a member of the department, a student must maintain a C average both in overall academic work and in all courses taken within the department itself. Students who fail to maintain this academic standard may be dropped from the Department by the Chair upon unanimous recommendation of the departmental faculty.

IV. COGNATE OR MINOR REQUIREMENTS (12-18 Credits)
The cognate requirement is designed to encourage the student to enroll in advanced courses outside the major field which will complement and enrich the student's understanding of his or her major. Courses taken for cognate credit must be approved in advance by a student's faculty adviser. A minimum of 12 credits is required. These credits may be distributed over more than one subject area. Only courses numbered 300 or above are acceptable for cognate credit with the exception of Economics 201 and 202. A grade of C or above must be earned in all cognate or minor courses. In place of the cognate requirement, students may elect to minor in another department. All minors must be selected with the guidance and approval of a faculty adviser in the student's major field of study.

Any two (2) of the following courses offered by South Carolina technical colleges can be used towards satisfying the cognate requirement in the Political Science degree program. Criminology (CRJ 125), Special Problems in Criminal Justice (CRJ 246), Seminar in Criminal Justice (CRJ 260), Torts (LEG 120), Introduction to Law and Ethics (LEG 135), Property Law (LEG 214).

V. ELECTIVES (20-34 Credits)

TOTAL CREDITS REQUIRED 120

For information regarding studies in Political Science - Secondary Education refer to the Graduate Programs section of this catalog.

POLITICAL SCIENCE MINOR
Politics 201 ................................................................. 3
Four Politics courses at the 300-level or above ........................................... 12
Politics elective ....................................................................................... 3
(Politics 399 may not be used to satisfy the minor requirement.)

TOTAL CREDITS REQUIRED 18

The minor sequence should be determined in consultation with the student's major adviser and an adviser in the Department of Politics and Geography. A student must earn a C or above in all courses to be applied toward the minor in political science.

LATIN AMERICAN STUDIES MINOR
History/Politics 320 .............................................................................. 3
Choose five of the following ................................................................. 15
At least three of these courses (9 hours) must be outside the student's major field and fall in two additional disciplines. (For example, if a student is a Spanish major, then two of these five courses may be Spanish courses, but the other three must not be. Also, the other three must be split between at least two disciplines - such as History and Politics, or English and Geography, etc.)

TOTAL CREDITS REQUIRED 18

A grade of C or above is required in each course to be applied toward the minor.
DEPARTMENT OF VISUAL ARTS

EDUCATIONAL OBJECTIVES
1. Art studio majors will develop competency and technical proficiency in one or more of the following areas: ceramics, drawing, graphic design, painting, print making, and sculpture.
2. Art studio majors will develop an understanding of the theoretical basis of art and an awareness of the standards which determine excellence in evaluating the visual arts.
3. Art studio majors will develop an understanding of the continuity of art history and art philosophy and become familiar with a broad spectrum of examples of contributions to the world of art from diverse cultures.
4. Art studio majors will develop their artistic ability and personal style in the visual arts.

ART STUDIO MAJOR
A maximum of 50 credits may be applied toward satisfying the Foundation Courses and Major Requirements in Art Studio.
 Students must earn a grade of C or above in each course used to satisfy Major Requirements.
 Students must submit portfolios for faculty review at the end of their sophomore year.
 One course labeled Writing Intensive (WI) must be taken by every student during each of the sophomore, junior and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year. In addition, one course labeled Computer Usage (CU) must be successfully completed by every student before graduation.

DEPARTMENT OF BIOLOGY

EDUCATIONAL OBJECTIVES
Students who graduate with a B.S. in Biology are expected to have:
1. An understanding of biology as a process and a body of knowledge.
2. An appreciation of the historical development of biological concepts and the relationships among these concepts.
3. The ability to integrate biology with other disciplines.
4. Experience with inquiry, observation, data collection, analysis and problem solving.
5. Experience using general as well as sophisticated laboratory equipment, developing discipline-specific field notebooks and journals, and preparing biological reference specimens.
6. Specific knowledge regarding the diversity of life on earth.
7. Written and oral communication skills focused on appropriate dissemination of biological information.
8. Self-discipline, persistence and a willingness to perform beyond the minimum requirements of a task.

BIOLOGY MAJOR
A maximum of 55-56 credits may be applied toward satisfying the Foundation Courses and Major Requirements. Students must earn a grade of C or above in all Major Requirements.

Every student during each of the sophomore, junior and senior years must take one course labeled Writing Intensive (WI). English 101 and 102 are designated as writing intensive courses in the freshman year. In addition, every student before graduation must successfully complete one course labeled Computer Usage (CU).

A major in biology prepares students for entrance into graduate school, medical school, dental school, veterinary school and many other health-oriented professions. In addition, completion of the first two years in a program designed for biology majors prepares students for transfer to a school of pharmacy or to a school of allied health sciences. Those students interested in teaching high school biology can complete a degree in biology and then pursue the M.A.T. (Master of Arts in Teaching) offered by the Spadoni College of Education. Other career opportunities for Coastal graduates with a biology degree include jobs with government agencies, private industries, and public health services.

<tbody>
<tr>
<td></td>
<td>15-16</td>
</tr>
</tbody>
</table>

TOTAL CREDITS REQUIRED 120

V. **MINOR OPTION**

Students majoring in Biology may choose to minor in any one field. The College of Natural and Applied Sciences encourages students to minor in one of the following fields: Business Administration, Chemistry, Marine Science, Computer Science, Math or Physics. A grade of C or above must be earned in each minor course.

For information regarding studies in Biology-Secondary Education refer to the Master of Arts in Teaching (M.A.T.) in this catalog.
DOUBLE MAJORS
A student may complete a double major by satisfying major requirements in each of two programs. The two programs should both offer the B.S. degree. For example, students completing a double major in Marine Science and Biology must complete 24 credits in Marine Science, 31-32 credits comprising Major Requirements in Biology, and must fulfill all other requirements in both majors.

BIOLOGY MINOR
The department offers a minor in Biology. Students interested in minoring in biology should contact the Department Secretary. A grade of C or above is required in each course to be applied toward the minor.

<table>
<thead>
<tr>
<th>Credits</th>

<tr>
<td>Biology courses numbered 300 and above (except Biology 470) ................................. 8</td>
</tr>
<tr>
<td>(No more than 4 hours of independent study (Biology 399 or Biology 499) may be applied toward the minor.)</td>
</tr>
</tbody>
</table>

TOTAL CREDITS REQUIRED 24

The biology minor sequence should be determined in consultation with the student’s major adviser and an adviser in the Department of Biology.

DEPARTMENT OF CHEMISTRY AND PHYSICS

EDUCATIONAL OBJECTIVES
Students who graduate with a B.S. in chemistry are expected to have:
1. A mastery of the fundamental principles underlying all chemical processes.
2. An appreciation of the broad and rapidly expanding body of chemical knowledge.
3. The ability to find specific information in the chemical literature.
4. The ability to interpret information obtained in experiments in terms of current chemical theory and concepts.
5. The ability to design experiments to obtain information related to chemical phenomena.
6. The ability to communicate orally and in writing specific information obtained in experiments and the interpretation of experimental results.

CHEMISTRY MAJOR
A maximum of 57 credits may be applied toward satisfying the Foundation Courses and Major Requirements.

The curriculum of the Bachelor of Science degree in Chemistry includes three areas of study: professional, environmental and biochemistry. Students will choose one based on their interests and career goals.
Area of Study | Courses Emphasized | Career Opportunities
--- | --- | ---
Traditional (classical) | Chemistry Core | Private Industry and public service
| | Two advanced courses in inorganic, analytical or physical chemistry | Preparation for graduate or professional school
| | | Teacher certification
Environmental | Chemistry Core | Governmental research laboratories
| | Two advanced environmental chemistry courses | Environmental Consultants and contract laboratories
| | | Environmental education
Biochemistry | Chemistry core | Private Industry
| | Two advanced biochemistry courses | Biotechnology research
| | | Molecular and genetic engineering

IV. ELECTIVES (12-22 Credits)

TOTAL CREDITS REQUIRED 120

CHEMISTRY MINOR
A minor in chemistry is available. Students interested in minoring in chemistry should contact the Department Chair of Chemistry and Physics. A grade of C or above is required in each course to be applied toward the minor.

Credits
Prerequisites: Chemistry 111/111L, 112/112L ........................................8
Chemistry 331/331L, 332/332L ....................................................8
Choose seven or more credits above Chemistry 332, subject to Departmental approval .........................................................7

TOTAL CREDITS REQUIRED 23

PHYSICS MINOR
A minor in physics is available. Students interested in minoring in physics should contact the Department Chair of Chemistry and Physics. A grade of C or above is required in each course to be applied toward the minor.

Credits
Prerequisites: Physics 211/211L, 212/212L, and 213/213L .........................12

Upper Level:
Choose two: Physics 301, 302, 303, 304 ........................................6
Choose two: Any 300 or higher physics course, subject to Departmental approval .................................6

TOTAL CREDITS REQUIRED 24

CSCI 498. The cooperative experience may be repeated two times for a total of six hours of credit.
DEPARTMENT OF COMPUTER SCIENCE

EDUCATIONAL OBJECTIVES

The Department of Computer Science recognizes the importance of providing a high quality education for its majors. Further, it recognizes that a part of its responsibility is to determine how successfully this has been accomplished. As a result, the department has identified the following objectives:

1. To develop an awareness of technological advances occurring in the field of computer science;
2. To develop an understanding and an appreciation for ethical behavior as it relates to information processing;
3. To provide an understanding of the theoretical foundations of computer science and the principles of algorithm design and analysis;
4. To provide an understanding of the principles of implementation and documentation of algorithms in a modern high-level structured programming language;
5. To provide an understanding of the principles, organization, and design of database management systems;
6. To provide an understanding of computer organization, computer architecture, operating systems and information structures;
7. To develop oral and written communication proficiency;
8. To develop the ability to work cooperatively as members of a team on software development projects; and
9. To provide additional knowledge in one area of emphasis involving either advanced theoretical topics or applied computer science.

To achieve these educational objectives, the computer science department offers two options.

1. The Theoretical Option requires additional courses in computer science, mathematics and the sciences. This option is designed to prepare students for graduate work in Computer Science and for computer related careers in industry.

Note: The Bachelor of Science in Computer Science with the Theoretical Option has been accredited by the Computing Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET).

2) The Information Systems Option requires additional courses in computer science, information systems, and business administration. This option is designed to prepare students for graduate work in Information Systems and for related positions in business and industry.

COOPERATIVE EDUCATION

Cooperative Education is a mutually-beneficial partnership among students, employers and the Computer Science Department at Coastal Carolina University. Through cooperative education, computer science students can participate in full time professional work experience related to their major while earning academic credit. Thus, Cooperative Education provides an excellent way to apply skills and information learned in the classroom to a real world setting while gaining invaluable experience.

Computer Science students who have completed their first year may apply to participate in Cooperative Education by submitting a resume to the Chair of the Department of Computer Science. As in the marketplace, Cooperative Education positions are competitive. If the student’s background matches the employer’s needs, then the student is sent on a job
interview with the prospective employer. When a student is selected, he or she registers for Computer Science 498. The cooperative experience may be repeated two times for a total of six hours of credit.

**NOTEBOOK COMPUTER REQUIREMENT**

As an integral part of the University’s goal to utilize and integrate technology into the teaching and learning experience, the Department of Computer Science requires all students enrolled in Computer Science 140/140L or 150/150L to have their own personal notebook computers.

**COMPUTER SCIENCE MAJOR**

A maximum of 66 credits may be applied toward satisfying the Foundation Courses and Major Requirements in Computer Science. Students must earn a grade of C in each course taken in the Department of Computer Science that is applied toward the Foundation, Major and Minor Requirements. One course labeled Writing Intensive (WI) must be taken by every student during each of the sophomore, junior and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year.

Additional Graduation Requirements

Students majoring or minoring in computer science must earn a grade of C or above for each course taken in the Department of Computer Science that is to be counted toward the major or minor.

Engineering Dual Degree Program with Clemson University

The Engineering Dual Degree program offers students the opportunity to begin their academic career by pursuing a Bachelors degree at Coastal Carolina University while preparing for an Engineering degree from Clemson University. The student will spend three years at Coastal Carolina University majoring in one of the four degrees listed below. The student will then spend two years and one summer at Clemson University majoring in one of eight engineering degrees listed below that is compatible with their major at Coastal Carolina University. While at Clemson University, the student will complete the remaining courses needed for their Coastal Carolina University degree.

Students interested in participating in this program should consult with the program director in the Department of Chemistry and Physics to plan their academic program. Course selection and course sequencing is critical for timely completion. A second adviser will be assigned from the major that is chosen at Coastal Carolina University. All students in this program should enroll for Engineering 101 as soon as possible. This engineering career exploration course introduces the diversity of engineering disciplines, gives students opportunities to design and test projects, and assesses the student's aptitude for engineering.

The following degrees are available within the Engineering Dual Degree Program:

Coastal Carolina University Major

Biology
Chemistry
Computer Science or Mathematics / Statistics

Clemson University Engineering Major

Biosystems Engineering, (Biotechnology Emphasis Area)
Chemical Engineering
Ceramic and Materials Engineering
Civil Engineering
Computer Engineering
Electrical Engineering
Industrial Engineering
Mechanical Engineering
COASTAL GEOLOGY MINOR

The curriculum in the coastal geology minor is designed to provide the student with a thorough education in geologic processes and features typical of coastal areas. The program provides rigorous education and practical field experience for students preparing for a career or graduate education in coastal geological studies.

Students interested in pursuing the Coastal Geology minor should consult with their major adviser and the coordinator of the geology minor to plan their program of study as early as possible. No more than four credits of Geology 399 may be applied toward the minor. A student must earn a grade of C or above in all courses to be applied toward the minor in Coastal Geology.

TOTAL CREDIT HOURS 20

ENVIRONMENTAL SCIENCE MINOR

The curriculum in the environmental science minor is designed to provide students with a rigorous interdisciplinary education in environmental science so they will possess the skills and knowledge needed to find effective, informed and ethical solutions to problems that involve interactions between physical, chemical, biological, economic and social factors. The program is designed as preparation for students seeking environmental careers, including enrollment in graduate programs, in areas including environmental policy and management, environmental education, and environmental monitoring and assessment.

Students pursuing the environmental science minor must consult with their major adviser and the Office of the Dean of the College of Natural and Applied Sciences which administers the minor. Students should enroll in Introduction to Environmental Science (Environmental Science 201) during their sophomore or junior year and then enroll in Advanced Environmental Science (Environmental Science 420) the following year. A grade of C or better is required in all upper level courses and in Environmental Science 201 and 420.

*a maximum of 6 credits from Marine Science 403, Environmental Science 399, 487 and 499 may be applied towards the minor

DEPARTMENT OF MARINE SCIENCE

EDUCATIONAL OBJECTIVES

Students who graduate with a B. S. in Marine Science are expected to:

1. Use the scientific method to describe, analyze, and solve scientific problems involving marine science and related fields.
2. Be prepared to obtain entry-level jobs or to enter graduate programs in various scientific fields.
3. To have a broad understanding of the fields of biological, geological, chemical, and physical oceanography.
4. To understand the relationships between concepts, the development of scientific trends, and the integration of all the sciences.

MARINE SCIENCE MAJOR

A maximum of 65 credits may be applied toward satisfying the Foundation Courses and Major Requirements.

Students must earn a grade of C or above in all major and upper-level science courses.

One course labeled Writing Intensive (WI) must be taken by every student during each of the sophomore, junior, and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year. In addition, one course labeled Computer Usage (CU) must be successfully completed by every student before graduation.

The major in Marine Science integrates the study of Biology, Chemistry, Geology, Physics and Mathematics and applies these to the marine environment. Major courses are selected from Marine Science, Biology, Chemistry, Computer Science, Geography, Geology, Mathematics, Statistics, or Physics. Students are encouraged to select an area of emphasis in either aquaculture, marine biology, coastal processes, marine analytical technology, atmosphere/ocean dynamics, or general marine science. Lecture, laboratory, and field experiences are integrated to provide a well-rounded scientific program. The facilities available for Marine Science majors include a lecture and laboratory complex, a computer research lab, ocean-going and estuarine research vessels, and a full complement of oceanographic sampling equipment. Laboratories and research projects are conducted on Waites Island, a barrier island, marsh and upland complex owned by the University. In addition, a close relationship is maintained with the University of South Carolina’s Belle W. Baruch Marine Field Laboratory located near Georgetown. Students completing the program are employed as marine technicians, public health and environmental science officers, science teachers, fisheries technicians, etc. Outstanding students are encouraged to pursue graduate study.

Admission to Degree Candidacy

Prior to being admitted to a Department as a degree candidate first year students must have one of the following:

1. A score of 465 (recentered) or above on the quantitative portion of the SAT exam or a score of 20 on the ACT exam, and placement into Mathematics 131 or higher. Students will be placed into mathematics courses based on results from an exam taken during the orientation period.
OR

2. Completion of:
   a. Mathematics 130 or 130I or higher with at least a C.
   b. Biology 121/121L with at least a C.
   c. Cumulative GPA of 2.00 or higher based upon at least 13 hours of earned course credit.

Students who have not completed these requirements within one year of enrollment at Coastal Carolina University are discouraged from applying for degree candidacy in the Marine Science program.

<tr>
<td>Science courses 300 level or above, including at least 8 credits designated as Marine Science with 4 of those credits selected from one of the following: Marine Science 303, 311/311L, 316/316L, 318/318L, 321/321L, 375/375L, 402/402L, 420/420L, 445/445L, 459/459L, 475/475L, 476/476L, 495/495L, 497(3 credits accepted for 497 only) (to meet SACS oral requirement)</td>
<td>20</td>
</tr>
</tbody>
</table>

A C or better is required in all upper-level courses taken for major credit.
Courses available to Marine Science majors for upper-level science credit:

Biology  301, 310, 315, 330, 340, 343, 350, 360, 370, 375, 399*, 410, 426, 436, 442, 450, 451, 455, 461, 473, 474, 475, 476, 477, 478, 480, 483, 499*

Chemistry  Courses numbered 300 and above

Computer Science  140, 150, and courses numbered 310 and above

Geography  201, 205

Geology  Courses numbered 300 and above

Marine Science  Courses numbered 300 and above

Mathematics  Courses numbered 240 and above, except 397

Physics  Courses numbered 300 and above

Statistics  Courses numbered 300 and above

*No more than 6 hours of independent study, internship, and/or directed under graduate research and/or senior thesis may be used for major credit.

RECOMMENDED AREAS OF STUDY IN MARINE SCIENCE

The following areas of study are for advisement purposes only and do not represent a degree program.

MARINE BIOLOGY (for students interested in the biology of the marine environment. Four general areas of study are available.)

A. **General Marine Biology** is designed for students who do not intend to pursue graduate studies and provides a broad background in marine biological topics.

   Required Courses:
   Plankton - Marine Science 476/476L, 455/455L .................................4
   Benthos - Marine Science 479/479L, Biology 310/310L .......................4
   Nekton - Marine Science 375/375L, 459/459L, 473, Biology 625/625L ....4

B. **Graduate School** bound students should take as many of the recommended courses as possible and either minor or double major in Biology.

   Required courses:
   Marine Biology Core ..............................................................16

   Recommended courses:
C. **Aquarium Sciences and Aquaculture** provides training for students interested in the care and maintenance of living organisms as aquarium or food species.

Required Courses:
- Marine Biology Core .......................................................... 16

Recommended Courses:
- Marine Science 303, 399 (Aquarium Internship), 402/402L,
  - Economics 222, or Business 371 (for students who intend to own their own business) ......................... 3/4

D. **Marine Education** provides training for students interested in teaching at various levels.

Required Courses:
- Marine Biology Core .......................................................... 16

Recommended Course:
- Marine Science 399 (Marine education internship) ........ 4

**MARINE ANALYTICAL TECHNOLOGY** (for students interested in pursuing careers as field or lab technicians in the marine sciences)

Required Courses:
- Marine Science 103, 311/311L, 318/318L, 331/331L .............. 15

Recommended Courses:
- Marine Science 399, Biology 330/330L, 370/370L, 574/574L, 578/578L, (choose two) .................................................. 8

**MARINE CHEMISTRY** (for students interested in pursuing careers in marine chemistry)

Required Courses:
- Chemistry 331/331L, 332/332L, 450/450L ................................. 12*
- Marine Science 401/401L and 402/402L ................................. 8

Recommended Courses:
- Marine Science 331/331L, 476/476L, 497 or 499 (choose one) .... 4

*Satisfies the requirements for a chemistry minor.

**ATMOSPHERE/OCEAN DYNAMICS** (for students interested in pursuing graduate studies in physical oceanography, atmospheric science or other physical sciences)

Required Courses:
- Mathematics 260 and 320, and 344 or 446 or 474 .................. 9*
- Computer Science 206 or 207 or 208 or 209 ......................... 3
- Marine Science 321/321L ...................................................... 4
- Other Related Advanced Courses (At least 4 credits with Marine Science prefix)
  - Mathematics 242, 449, 452, 460, 465 and Marine Science 311/311L
  - 399, 445/445L, 495/495L, 497, 499 ................................. 7/8

*Satisfies the requirements for a mathematics minor.
COASTAL GEOLGY (for students interested in geologic processes that shape and change the coastal zone and the evolution of the coastline's unique environments)

Required Courses:
Marine Science 316/316L, 445/445L ................................................................. 8

Other Related Courses:
Marine Science 318/318L, 331/331L, 401/401L or 402/402L, 499 ............ 8

IV. COGNATE OR MINOR REQUIREMENTS (0 Credits)
Students majoring in Marine Science are not required to complete a minor or cognate. However, they may elect to minor in any field in which Coastal Carolina offers a minor. If the minor includes courses which can be used for Marine Science major credit, then up to 12 hours of those courses may also be applied toward the upper level science requirement of 36 hours. All 24 credits in Marine Science must be from courses which have a MSCI designation. Otherwise, students must complete their minor in addition to the 36-credit major requirement. In all cases, students seeking minors must have an adviser selected from the department offering the minor in addition to their Marine Science adviser. Students may also elect to study intensively an area of interest in Marine Science by selecting an area of emphasis (see pages 166 - 167). Each student will plan their intensive study in consultation with their Marine Science adviser.

V. ELECTIVES (3-9 Credits)

TOTAL CREDITS REQUIRED 120

DOUBLE MAJORS
Students may double major in any program which offers a B.S. degree. To complete a double major, students must satisfy the major requirements for both programs (e.g. 36 credits of upper-level Marine Science credits) and complete a minimum combined total of 48 upper-level credits in the two majors, all with a grade of "C" or better.

MARINE SCIENCE MINOR

<table>
<thead>
<tr>
<th>Credits</th>

</tr>
</tbody>
</table>

(No more than 3 hours of Marine Science 399, 497, and/or 499 may be included in the minor.)

TOTAL CREDITS REQUIRED 20

A grade of C or above is required in each course to be applied toward the minor.
DEPARTMENT OF MATHEMATICS AND STATISTICS

EDUCATIONAL OBJECTIVES
1. To develop an understanding that an individual must continually pursue relevant knowledge and new insights to be able to cope with the ever advancing informational needs of a technological society.
2. To develop analytical and quantitative skills.
3. To develop an understanding of the theoretical foundations of mathematics.
4. To develop problem solving models.
5. To develop oral and written communication proficiency.
6. To develop the individual's capability to become an independent learner.

APPLIED MATHEMATICS MAJOR
A maximum of 48 credits may be applied towards satisfying the Foundation Courses and Major Requirements.

Students must earn a grade of C or above in all Major and Cognate courses, including Math 160, 161, and 174.

One course labeled Writing Intensive (WI) must be taken by every student during each of the sophomore, junior, and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year. In addition, one course labeled Computer Usage (CU) must be successfully completed by every student before graduation.

The major in applied mathematics develops a high degree of mathematical proficiency and is designed to apply mathematical knowledge to the solution of real world problems. The Department of Mathematics and Statistics offers two options leading to a B.S. degree in Applied Mathematics.

The major prepares students for a broad range of graduate programs. Students who successfully complete the applied mathematics degree will be competitive for careers in actuarial sciences, business, cryptology, government, industry, manufacturing and design, mathematical modeling, management, medicine, statistics, teaching, and space technology.

Three minors are offered -- Applied Mathematics, Statistics, and Actuarial Science. A minor in mathematics or statistics blended with another major strengthens employment opportunities as well as candidacy for graduate school.

II. FOUNDATION COURSES (12-13 Credits)
Computer Science (One course must be a programming language)..............6
Mathematics 174.......................................................................................3
One additional science course.................................................................3-4

III. MAJOR REQUIREMENTS (35 Credits)
Mathematics 220........................................................................................2
Mathematics 260, 320, 344, 450.................................................................13
Mathematics 490 (Seminar).....................................................................1
Statistics 201/201L and either 315, 316, 317 or 412...............................7
Select one of the following options: .........................................................12
  OPTION 1. Mathematics 452, 460 or 465, 474, and one course
              numbered 300 or above
  OPTION 2. Mathematics 446, 452, 454 or 474, and one course
              numbered 300 or above

IV. COGNATE OR MINOR REQUIREMENTS (9 Credits)
Mathematics majors will select an interdisciplinary cognate of upper level
courses with the approval of their faculty adviser. A grade of C or above
is required in each course to be applied toward the cognate.

V. ELECTIVES (11-18 Credits)

TOTAL CREDITS REQUIRED ......................................................................120

For information regarding studies in Mathematics-Secondary Education refer to the
Graduate section of this catalog for information on the M.A.T. degree.

ACTUARIAL SCIENCE MINOR Credits
Prerequisites: Statistics 201/201L, Mathematics 160,161 .........................12
Mathematics 260......................................................................................4
Mathematics 320......................................................................................3
Statistics 412, 413, 419, 420 .................................................................12

TOTAL CREDITS REQUIRED ......................................................................31

A grade of C or better is required in each course to be applied toward the minor.

MATHEMATICS MINOR Credits
Prerequisites: Mathematics 160, 161 ......................................................8
Mathematics 260......................................................................................4
Mathematics 320......................................................................................3
Mathematics 331, 332, 344, 349, 446, 465, 474 (Choose one).................3
Statistics 201/201L...............................................................................4
Computer Science (Must be a programming language)...........................3
  (Computer Science Majors must take Computer Science 360.)

TOTAL CREDITS REQUIRED ......................................................................25

A grade of C or above is required in each course to be applied toward the minor.
STATISTICS MINOR

Prerequisites: Statistics 201/201L ................................................................. 4
Mathematics 260 .......................................................................................... 4
Statistics 315, 316, 317 (Choose two) .......................................................... 6
Statistics 412 .............................................................................................. 3
Statistics 399, 413, 418, 420 (Choose two) ................................................... 6

TOTAL CREDITS REQUIRED 23

A grade of C or above is required in each course to be applied toward the minor.

GENERAL MATHEMATICS COURSES

Mathematics 101, 102 comprise a one-year sequence in mathematics for students in the humanities. These courses are designed to introduce the student to general mathematical thinking and problem solving. They can be used for credit only toward a B.A. degree in certain areas.

Mathematics 130 or 130I, 132 comprise a one-year sequence for students in Business and the Social Sciences or other programs which do not require a knowledge of trigonometry.

Mathematics 130 or 130I and 131 are the basic pre-calculus courses for students who plan to take Mathematics 160 and need a more thorough development in algebra and trigonometry before entering Mathematics 160.

Mathematics 160, 161, 260 constitute the normal calculus sequence for students majoring in engineering, mathematics, physics, or any science requiring the use of trigonometry.

Mathematics 201, 202, 203, constitute the normal sequence for students majoring in Early Childhood and Elementary Education.

FRESHMAN PLACEMENT IN MATHEMATICS

Placement in mathematics may require students to take the mathematics placement test.

DEPARTMENT OF PSYCHOLOGY AND SOCIOLOGY

EDUCATIONAL OBJECTIVES: Psychology

The Psychology faculty are committed to providing a quality undergraduate education for all psychology majors. As such, the educational goals and objectives of the Psychology program are as follows:

1. To offer students the opportunity to obtain knowledge and develop competence in the diverse major content areas of psychology.
2. To offer students the opportunity to obtain knowledge regarding the historical, cultural, and social perspectives of psychology as an academic discipline.
3. To offer students the opportunity to develop research design, methodological, assessment, and statistical skills.
4. To offer students the opportunity to participate in undergraduate research.
5. To assist students in improving oral and written communication skills.

PSYCHOLOGY MAJOR

A major in Psychology offers students a thorough foundation in research design/ methodology and statistics. In addition, Psychology majors will be exposed to the major content areas in psychology, specifically basic principles of learning and experimental psychology, developmental and social psychology, and areas in clinical assessment. Psychology majors often seek employment with mental health and social service agencies. In addition, many Psychology majors pursue graduate degrees to prepare for careers in teaching, research, counseling, and consulting. The Psychology Department offers both B.A. and B.S. degrees.
Students must earn a grade of C or above in each course used to satisfy Major Requirements, Cognate Requirements, and minor fields.

One course labeled Writing Intensive (WI) must be successfully completed by every student during each of the sophomore, junior and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year. In addition, one course labeled Computer Usage (CU) must be successfully completed by every student before graduation.

First semester seniors are strongly encouraged to meet with their adviser for a pre-graduation check.

A. BACHELOR OF ARTS IN PSYCHOLOGY

IV. COGNATE OR MINOR ................................................. 12-24

All cognates must be approved by the student’s adviser. A structured minor field of study, approved by the student’s adviser, may be substituted for the cognate requirement. Students are advised to earn basic science credits in biology and chemistry or physics. A grade of C or above is required in each course to be applied toward the cognate or minor English 457 (Form and Style in Writing) and English 459 (Advanced Composition and Rhetoric) are highly recommended as cognates.

V. ELECTIVES (0-11 Credits) ........................................................... 0-11

Theater 140 is recommended.

TOTAL CREDITS REQUIRED ................................................. 120-129

COGNATES

The cognate requirement is designed to encourage the student to enroll in advanced courses outside the major field which will complement and enrich the student’s understanding of his or her major.

Courses taken for cognate credit must be approved in advance by a student's faculty adviser. Students majoring in disciplines within the College of Natural and Applied Sciences must earn 12 semester hours of cognate credit. These courses may be distributed over more than one subject area. Usually, only courses numbered 300 or above are acceptable for cognate credit. Please consult your adviser for a current list of courses approved for cognate credit in your degree program.
MINOR PROGRAM

Students may substitute an approved minor course for the cognate requirement. The minor must include at least 12 hours of upper-division courses in a single discipline, and must be selected with the guidance and approval of a faculty adviser in the student’s major field of study. A grade of C or above is required in each course to be applied toward the minor.

GERONTOLOGY CERTIFICATE PROGRAM

The Gerontology Certificate program, administered through the Department of Psychology and Sociology, is designed to provide students with a foundation of knowledge and skills in the study of aging. The 21 credit hour (7 course) undergraduate certificate program is open to any degree-seeking student currently enrolled in a degree-program at the University and individuals holding a Baccalaureate degree who desire specialized studies. The multi-disciplinary nature of the program allows individuals of different interests and backgrounds to develop specializations in line with their unique needs and applicable in a rapidly growing market segment.

All candidates for a Gerontology Certificate must file a formal Application for Gerontology Certificate form during the first month of the term of graduation with the Director of Gerontology. The application forms may be obtained from the Director of Gerontology or the Office of the Registrar. Applications for summer certification are to be submitted by June 15.

Admission: Students become eligible for admission to the gerontology program upon submitting an application to the Director of the program after demonstrating satisfactory completion of 30 or more credits of college-level studies including Psychology 101 or Sociology 101. Admission to the gerontology program must take place not later than one full Fall or Spring semester before an internship placement. An internship placement will occur only after admission to the program and satisfactory completion of at least four courses in the gerontology curriculum.

Program Requirements: The program requirements are supplemental to a student’s major field of study and may be taken along with the traditional degree requirements or after the degree is completed by individuals meeting the University’s entrance requirements. Students pursuing a gerontology certificate while completing major field of study requirements should consult with an academic adviser in the major field of study to determine the status of gerontology program courses as electives, cognates, or major requirements. The certificate of program completion will be issued only concurrently with, or after, the accomplishment of a Baccalaureate degree.

Curriculum: The gerontology program consists of six 3-credit hour classroom experiences and one 3-credit hour supervised internship in a setting approved and arranged by the program Director.

TOTAL CREDITS REQUIRED 21
SOCIOLOGY MAJOR

Educational Objectives: Sociology

The Sociology faculty are committed to providing a quality education that offers students the opportunity to:

1. Acquire knowledge concerning sociological perspectives and contributions of major sociological theorists.
2. Locate and use sociological and demographic research.
3. Acquire knowledge concerning sociological research methods including basic demographic, quantitative, and qualitative research skills.
4. Define and explain core sociological concepts and apply them to social problems and topical areas.
5. Acquire information concerning occupational opportunities for those with sociological skills.

A major in Sociology offers students a thorough foundation in sociological theory and research methods in the social sciences. In addition, students can select from a variety of courses including sociology of religion, the family, poverty, crime, and other topical areas of interest. Sociology majors often seek employment with social service agencies, government programs, and in areas relating to criminal justice and social work.

Students must earn a grade of C or above in each course used to satisfy Major Requirements, Cognate Requirements, and Minor Requirements.

One course labeled Writing Intensive (WI) must be successfully completed by every student during each of the sophomore, junior and senior years. English 101 and 102 are designated as writing intensive courses in the freshman year. In addition, one course labeled Computer Usage (CU) must be successfully completed by every student before graduation.

First semester seniors are strongly encouraged to meet with their adviser for a pre-graduation check.

III. MAJOR REQUIREMENTS (31-32 Credits)
Sociology 101, 102 ................................................................. 6
Sociology 309, 310/310L, 320 (Choose two)............................. 6-7
Sociology 330, 331/331L ............................................................ 7
Sociology 300-level and above .................................................. 12

   All 300 and above sociology courses must be approved by the student’s adviser. Programs of study will be structured to fit the student’s goals and occupational plans. Sociology 499 is recommended. Transfer students with Associate Degrees in Criminal Justice may be permitted to use selected criminal justice courses to fulfill degree requirements.

IV. COGNATES OR MINOR REQUIREMENTS (12-24)
All cognates must be approved by the student’s adviser. A structured minor field of study, approved by the student’s adviser, may be substituted for the cognate requirement. A grade of C or above is required in each course to be applied toward the cognate or minor.

V. ELECTIVES (3-24 Credits) ................................................. 3-24

TOTAL CREDITS REQUIRED 120

COGNATES
The cognate requirement is designed to encourage the student to enroll in advanced courses outside the major field which will complement and enrich the student’s understanding of his or her major.

Courses taken for cognate credit must be approved in advance by a student’s faculty adviser. Students majoring in disciplines within the College of Natural and Applied Sciences must earn 12 semester hours of cognate credit. These courses may be distributed over more than one subject area. Usually, only courses numbered 300 or above are acceptable for cognate credit.

Transfer students with Associate degrees in Criminal Justice may be permitted to use selected criminal justice courses to fulfill degree requirements.

A grade of C or above is required in each course to be applied toward the cognate.

MINOR PROGRAM
Students may substitute an approved minor course of study for the cognate requirement. The minor must include at least 12 hours of upper-division courses in a single discipline and must be selected with the guidance and approval of a faculty adviser in the student’s major field of study.
