

The Jackson Family Center for Ethics and Values presents

*TEA & ETHICS*

**Pandemic Ethics:**  
**Is Providing Healthcare an**  
**Obligation?**

Please join us for tea and cookies as we discuss the following questions: How has our healthcare system handled the HIV pandemic? Should HIV patients be treated differently than those with less stigmatized illnesses, such as diabetes? Will our healthcare system be able to handle future pandemics such as the predicted avian influenza (bird flu) pandemic? How will our system react to possibly hundreds of millions of people in need of healthcare? How should it respond in such a situation?
