

What does a finance major study?

Finance students study banking, investment management, capital budgeting and funds management. Finance can be called both the art and science of managing money. All areas of the economy, whether businesses, nonprofit institutions or government agencies, have financial issues to be managed. Finance can be classified into at least three categories: corporate finance, investments, and financial markets and institutions. Corporate finance is the study of how businesses acquire, spend and manage funds. Investment is the study of money management, investment strategies and policies, security analysis and portfolio composition. Financial markets and institutions represent the study of the structure and operation of the entire financial system including securities markets, government institutions, financial/banking institutions and international financial markets.

Why study finance at Coastal Carolina University?

- The E. Craig Wall Sr. College of Business Administration is accredited by AACSB International, the premier accrediting body for business colleges.
- For students who wish to continue their education, Coastal Carolina University offers a specialized Master of Accountancy (MAcc) and Master of Business Administration (MBA) degree, which provides instruction in accounting, finance, economics, management and marketing.
- Students can apply for the Wall Fellows program, designed to prepare top business students for high-level careers in major U.S. and international corporations and organizations. This two-year program features internships and coursework covering specific interpersonal and communication skills, ethics, personal appearance, and business and social etiquette.
