The Tourism Economy Study: CCU Lodging Update, August 13, 2015

Current Performance Estimates

Hotel, Condo-Hotel and Campsite Properties

Preliminary results from Coastal Carolina University’s voluntary sample of hotel, condo-hotel and campsite (HC-HC) properties along the Grand Strand during the week of Aug. 2-9, 2015, indicate that the midweek occupancy rate averaged 88.3 percent, up 0.3 occupancy point or 0.3 percent compared to the equivalent week of 2014. During the Friday-Saturday night period, the occupancy rate averaged 97.7 percent, up 5.1 occupancy points or 5.5 percent compared to the equivalent weekend last year. The average daily rate (ADR) was up 5.3 percent during the midweek period and up 8.7 percent during the weekend period compared with last year. Consequently, HC-HC occupancy for the week overall was up 1.3 occupancy points or 1.5 percent, and revenue per available room (RevPAR) was up 7.5 percent compared with the equivalent week of 2014.

VRPs

Based on the Brittain Center’s observations of random samples of Internet websites of vacation rental properties (VRPs) in the coastal sections of Horry and Georgetown counties (318 of the 3,135 units) for which complete data are publicly available, 92 percent were reserved or blocked from nightly rentals during the nights of Aug. 1-7, 2015. The percentage of VRPs reserved in Horry and Georgetown counties combined was down 2.2 occupancy points or 2.5 percent compared with the equivalent week of 2014. For the nights of Aug. 8-14, 83.4 percent of the VRPs were reserved or blocked from reservation. The level of reservations was down 5.8 occupancy points or 6.5 percent compared with the equivalent week of 2014.

Six-Week Average Performance

During the nights of June 28-Aug. 8, 2015, 90.7 percent of the lodging properties in the Brittain Center’s voluntary sample of HC-HC properties located along the Grand Strand were occupied, which was up 3.1 occupancy points or 3.5 percent compared with the equivalent weeks of 2014. The average daily rate for these properties was up 6.3 percent compared with the equivalent weeks of 2014, leading to a 10.1 percent increase in average RevPAR compared with the equivalent period last year. During the same period this year, 91.4 percent of the VRP bedrooms in the Center’s random sample of Horry County VRPs were reserved or blocked from nightly rentals, down 4.3 occupancy points or 4.5 percent compared with the equivalent weeks last year. Advertised prices for this segment were up 4.7 percent compared with last year, which would lead to a decrease in revenue per available bedroom of 0.1 percent.

Forecast and Analysis

According to weather.com at the time of this writing, the forecast for the weekend of Aug. 15-16 calls for a 10 and 10 percent chance of precipitation, with highs of 90 and 89 degrees, respectively. The Brittain Center predicts that average occupancy for its sample of HC-HC properties may be 92 percent for the weekend nights of Aug. 14-15, even or up 1-2 occupancy points compared with the equivalent weekend of 2014. Based on this week’s observations by Center researchers of 318 websites of VRPs available to rent in Horry and Georgetown counties, 65.5 percent are reserved for the week of Aug. 15-21. VRP reservations in Horry and Georgetown counties for that week are down 16.9 occupancy points or 20.5 percent compared with the same week of 2014.

Additional Research Notes

The Brittain Center’s preliminary sample of 27 HC-HC properties reporting for the week of Aug. 2-9 consisted of 14 hotels (all but five are oceanfront/view, and five are brand affiliated), 12 condo-hotels (all are oceanfront/view, and one is brand affiliated), and one campground resort property. The results for the current moving six-week period are based on an average sample size of 9,048 units per week average.
