Welcome to Coastal. One of your first questions is how will my previous college credits transfer to Coastal’s Core Curriculum?

1. Review your Program Evaluation Form (available through Webadvisor) and see which credits automatically transferred.

2. Review your transfer elective credits to see what courses could be petitioned in to fulfill Core Curriculum gaps.

3. Meet with your advisor and fill out the “Petition for Exception to the Core Curriculum Requirements” form(s).

4. Be sure to include a statement that explains how the course being petitioned fulfills the student learning outcomes for the Core Goal Area. Include a copy of the syllabus or course catalog description from your previous institution.

5. Wait to hear the outcome of your petition.

Notes:
