SUMMARY:

The death of a student is a tragedy for the family and friends of the deceased and a significant loss for the University community as well. This policy provides clear and consistent instructions as to the actions to be taken and the notifications to be issued in the event of a student death.

POLICY:

I. Initial Response to a Student Death

A. Occurring on Campus

2. At the first opportunity, the Chief of the University Department of Public Safety will notify the South Carolina State Law Enforcement Division of the death. SLED is responsible for investigating unnatural deaths or deaths under suspicious circumstances.

3. The Chief of the University Department of Public Safety will notify the Campus Emergency Management Team, which includes the Vice President for Student Affairs (VPSA), as soon as is practicable. The appropriate members of the team will convene at least once with a briefing from the Chief.

4. The VPSA will determine, verify and supply the following information about the deceased student to the University Department of Public Safety and to the Horry County Coroner:
   a. name;
   b. age/date of birth;

f. RMAS (Room Assignment) information and roommates; and

g. campus affiliations.

5. It is the responsibility of the Horry County Coroner, in collaboration with the
   VPSA, to notify the student’s family of the death. The VPSA will serve as the
   University’s official contact with the family.

6. Depending upon the cause of death and the police investigation, area clean-up
   may require departmental plans to be implemented due to the inability to
   use/occupy the area on campus.

7. Hazardous clean-up may need to be coordinated through the Environmental
   Health and Safety Department.

B. Occurring Off-Campus During the Academic Year

1. Anyone becoming aware of the death of a student that occurred off-campus
   should immediately inform the VPSA.

2. The VPSA will verify the information and notify the President, the Executive
   Vice President/Chief Operating Officer, the Provost and the Office of
   University Communication as soon as possible.

3. The President, or his/her designee, will determine if the Campus Emergency
   Management Team should convene depending upon the circumstances of the
   death (e.g., if the student died while engaged in University activities/travel; if
   the death was accidental or criminal, etc.).

C. Occurring Off-Campus Not During the Academic Year

1. Anyone becoming aware of the death of a student that occurred off-campus
   should immediately inform the VPSA.

2. The VPSA will verify the information and notify the President, the Executive
   Vice President/Chief Operating Officer, the Provost and the Office of
   University Communication as soon as possible.

D. In All Cases

1. The VPSA will be the primary point of contact for the student’s family.
   When appropriate, the VPSA will assist the family in making arrangements to
   come to campus, reserve local accommodations, take care of University
   business, and other related assistance as needed.

2. The Director of News and Public Affairs and the Chief of the University
   Department of Public Safety, in consultation with University Counsel if
   applicable, will determine the appropriate timing for, and the content of
   information to be shared in, a public announcement and a release to the press.
Said announcement and press release will be disseminated by the Office of University Communication.

3. Provide assistance as directed by the VPSA.

H. Registrar’s Office will:

1. When notified of a student death by the President, Provost, or Vice President of Student Affairs, place a “DC” (deceased) privacy code on the student’s academic record. This code prevents unauthorized access to the deceased’s record within the student information system and alerts University departments that no additional communication should be sent to the deceased student, the student’s parents, legal guardian or spouse.
2. Obtain external verification of the student’s death for inclusion with the academic record. External verification is generally obtained through online news articles (in the case of accidental death) or by obituary.
3. Process an official University Withdrawal Form, utilizing the date of death as the date of withdrawal. Close the student’s official record, and mark it with a privacy code of “DC” for deceased.
4. Mark the local and permanent mailing addresses as “former” in order to block the mailing to, or generation of mailing labels for, a deceased student.
5. Provide notification of the death and processed withdrawal to the VPSA, the Provost, the Dean of Students, the Vice President for Enrollment Services, the CIO/Assistant Vice President for Information Technology Services, the Associate Vice President for University Communication, the Department Chair and Dean of the deceased’s academic major, and the Directors of the Departments of Financial Aid, Student Accounts, University Housing and Alumni Affairs.
6. Audit the deceased student’s academic record to ensure the conservation of complete and accurate records and electronic data base elements (e.g., admission data, grades, registration activity, etc.) such that the information is intact and viewable in the student information system and optical imaging system. All semester, course, grade and other academic notations will remain on the student’s record.
7. Determine whether the deceased student is eligible to receive a posthumous degree and report that finding to the VPSA.
a. Prior to graduating, any undergraduate student who died while officially enrolled at the University (Fall and Spring Semesters, or during a summer or interim period following a major semester of enrollment), and who was within 18 credit hours of completing the degree requirements of the academic program/major of record, is eligible to be awarded a posthumous bachelor’s degree.

b. Prior to graduating, any graduate student who died while officially enrolled at the University (Fall and Spring Semesters, or during a summer or interim period following a major semester of enrollment), and who is within 9 credit hours of completing the degree requirements of the academic program/major of record, is eligible to be awarded a posthumous Master’s degree.

c. The Registrar’s office will review the deceased’s completed credit hours. If the credit hours are within the range where a posthumous degree may be considered, the Registrar’s Office will request a formal graduation audit from the Department Chair of the student’s major and Academic Dean to verify the actual remaining hours.

d. If the posthumous degree is approved by the Chair/Dean of the College in which the deceased student was enrolled, the Registrar’s Office will receive final certification from the Provost, notify the VPSA of the awarding of the degree and order the degree. Upon receipt, the Registrar’s Office will furnish the posthumous degree to the VPSA.

I. Office of Student Accounts will:

1. Settle the deceased student’s financial accounts with the University, in conjunction with other appropriate offices, and process allowable refunds.
2. Allowable refunds include:

   d. Parking permit fees.
   e. CINO Card balances.

J. Financial Aid & Scholarships will:

1. Collaborate with HREO to finalize any Federal Work-study remaining payroll payments and close any related employment records.
2. Perform a Return to Title IV funds calculation based on the deceased student’s actual last date of attendance, if applicable.
3. Ensure that the required funds are returned to the appropriate agencies.

K. Kimbel Library will:

1. Check to see if the student has any materials checked out of or rented from the library.
2. A list of any such materials will be forwarded to the VPSA to address. VPSA will return any University library materials found with the student’s belongings to the library.

L. Department of Public Safety/Parking Services will:

1. Secure site if the death occurred on campus. Contact Coroner’s office.
2. Serve as the point of contact with other law enforcement officials.

2. Ensure mail forwarding as necessary.

III. Access Within The Student Information System to a Deceased Student’s Record

A. After the “DC” deceased privacy code has been placed on the student’s record within the student information system, only select individuals with a specific need to know will have the ability to override the code and review the student’s record.

B. Each department/entity that needs access to the record in order to perform their duties must furnish a list of individuals that require deceased code override access to the University Registrar. The University Registrar will then apply the privilege to those individuals in the student information system.

C. As personnel changes are made within their offices, the director/leader of each department is responsible for providing updated access information (who to add or remove) to the University Registrar.

IV. Records Disclosure Procedure

The Family Educational Rights and Privacy Act (FERPA), which protects the privacy of student educational records, does not extend past death. Non-educational records are governed by various other laws based on the record type. In order to ensure that the requirements of these laws are being adhered to, any request for information concerning a deceased student’s record must be reviewed by University Legal Counsel prior to release.
