SUMMARY:

This policy provides guidelines for towing of vehicles by the Coastal Carolina University Department of Public Safety.

POLICY:

I. POLICY

Coastal Carolina University, as a state agency, will enforce rules and regulations pertaining to the safe operation, parking, and registration of motor vehicles on both on-campus and off-campus properties. In order to enforce the rules and regulations of the University and to promote public safety, the Department of Public Safety has the authority to immobilize a vehicle by using a mechanism commonly known as a “boot,” or to have a vehicle towed and placed in storage by a local towing service.

II. PROCEDURES

The owner or driver of a booted vehicle must pay a fine for removal of the boot. The owner or driver of a towed car will be responsible for all towing and storage fees. Towing services will be selected on a rotating basis from an approved list maintained by the Department of Public Safety.

Please see the current edition of the Coastal Carolina University Traffic and Parking Regulations handbook, copies of which are available at the Department of Public Safety or online at Department of Public Safety Current Traffic and Parking Regulations, for a list of the violations which could result in the booting or towing of your vehicle.
