

HALA AMER ~ MEDITLANTIC IMPORTERS, LLC

"Last year my husband had a serious pain in his back, the doctor advised us to purchase a good, firm mattress. I was so confused about what to do, especially since we had tried the best and most expensive mattresses in the past. Then I remembered the mattress we had in Egypt. It was of such high quality, uniquely comfortable, durable and not at all expensive."

This was the starting idea that came to me, "import this high quality bedding together with the finest Egyptian cotton linen and bed spreads to make this luxury affordable to everybody in the U.S."

We began early in 2006 with a lot of research. In August 2006, we began offering our products to high end resorts and motels in Myrtle Beach. We received positive responses concerning the high quality and the additional features that make our products elite and unsurpassed. Just before Christmas, we delivered our first 20" container order to local hotel owners and managers who wished to own the product at their own homes. We are now displaying our products in two hotels in Myrtle Beach for the individual owners who wish to upgrade.

Importing the best products and technology in bedding is the least I can give to the consumers in a country that gave so much to my family. This is how I would like to show my appreciation.
