Moodle Student Guide
How to Login to Moodle

Quick Tips
- Your Moodle username and password are the same ones you use to access other Coastal tools.
- There is no www in front of the Moodle web address: moodle.coastal.edu
- Moodle resources are available at the top of the login screen.

2. Type in your Coastal Carolina University username and password. Your username is the first part of your Coastal email address. For example: **jsmith1** (Do not type in your entire email address.)

3. Click **Login**.

   If you are unable to login:
   - you may need to check to make sure you are using the correct username and password. Click the **Forgotten your username or password?** link to check your password.
   - you may need to enable cookies in your browser to allow the MoodleSession cookie. The MoodleSession cookie will keep you logged in as you move from page to page in your Moodle site.

   If you have checked your username and password, and you have enabled cookies, and you are still unable to login, click the **Student Help Request** link at the top of the screen and send a message to the Moodle Help Desk.
