### This Month's Features

In response to citizen concerns regarding development proposals along the Waccamaw River, Horry County's Stormwater Advisory Board has formed an Ad Hoc Committee to discuss and make recommendations on strategies to achieve a balance between economic growth and development and sustaining natural resources. The committee will seek input from a broad range of community members and may address incentives for habitat protection, stream and wetland buffers, a more stringent floodplain policy, a comprehensive drainage master plan, and other related topics. For more information, contact David Fuss at 349-4023 / <mailto:dfuss@coastal.edu> or Christine Ellis at 349-4007 / <mailto:wrk@coastal.edu>.
