Grants and Other Externally Funded Activities:

John Goodwin:

Grants applied for:

- Professional Enhancement Grant (Grant Writing): Preparation of a Grant Proposal for Multi-User X-Ray Diffraction Instrumentation for Coastal Carolina University, $4000 requested
- CoPI on an NSF MRI grant proposal with Prof. Allen Clabo of Francis Marion University for a computational chemistry node at Clemson University for use by a local consortium including CCU.

Grants received:

- Professional Enhancement Grant (Grant Writing): Preparation of a Grant Proposal for Multi-User X-Ray Diffraction Instrumentation for Coastal Carolina University, $2500 awarded

John Reilly:

Grants applied for:

- NSF 00-144 Chemistry of Life Processes
  Temporary # 7066329
  Title: Oxygen dependence on the photochemical inhibition of histidine ammonia lyase.
  Amount: $ 80,738

Paul Richardson:

Grants applied for:

- Renewal grant to the NIH titled, “Molecular Mechanisms of Biogenesis of Apolipoprotein B-containing Lipoproteins”. $1,400,000. (Submitted April 2010, rejected October 2010).
Grants received:

- “A nutritional assessment of women planning to become pregnant before and after nutritional education workshops in rural Horry County, South Carolina.” Coastal Carolina Academic Enhancement Grant for $6,000 and accepted. (Oct 2010)

Continuing Grants:

- Assessing scientific communication skills in Chemistry, Coastal Carolina University Assessment Grant, $6375, granted Spring 2010.

Brett Simpson:

Continuing Grants:

- Assessing scientific communication skills in Chemistry, Coastal Carolina University Assessment Grant, $6375, granted Spring 2010.
