Fall 2010 – Summer 2011

Projects and Initiatives

Derek Elgin:

- Polymer Chemistry CHEM 333 – New upper level chemistry course

John Goodwin:

- Further development and approval of CHEM 311 Foundations of Inorganic Chemistry and CHEM 411 Advanced Inorganic Chemistry

John Reilly:

- Taught the new statistical thermodynamics (CHEM 341) in the spring of 2011.
- Renewed the membership of the chemistry club with the OSAL at CCU and with the American Chemical Society.

Paul Richardson:

- Officially approved Biochemistry program on Jan 2010. First student were accepted into the program Fall of 2010. For the incoming class in 2011 we have over 308 biochemistry students that have been accepted.

Brett Simpson:

- American Chemical Society (ACS) Certification for the Chemistry degree. All faculty members assisted with gathering the necessary information. Submitted Spring 2010
