Mr. David Douglas, president of the Coastal Educational Foundation (CEF), stated that as of March 31, the total assets for the Foundation were \$34.9 million; liabilities are \$2.8 million; and, a fund balance of \$32.1 million. The CommonFund assets are \$23.7 million with allocation of 74% in equities and 26% in bonds. The CommonFund total return for the third quarter was 3.75%. The Foundation provides over \$3 million in this fiscal year in support of scholarships, programs and operational needs of the University. The CEF has approved the construction of a gate at the Waties Island facilities. The 36-member Board of Directors has been reorganized and each member has chosen to focus on one of the six areas of planned giving: estate giving, alumni and annual giving, business and education college, science and humanities college, student affairs and library, and athletics. The Foundation stands ready to be of service to the University.

Mr. John Griggs, chair of the CCU Student Housing Foundation (SHF), reported that the occupancy rates are in line with expectations resulting in debt service coverage. The SHF is in the process of a summer maintenance program preparing for the students returning in the fall. The Campus Master Plan approved an aggressive student growth plan. The SHF and the Administration are in the process of planning for 600 additional beds to be located on the Elvington Tract by Fall 2013. Since its inception in 2003, the SHF has purchased/built over 2,079 beds to provide high quality student housing. The Foundation's debt has gone from zero to about \$88 million. The SHF is prepared to continue their mission to provide student housing.

Roll call was taken.

**II. Approval of Minutes**

**Mr. Gene Spivey moved to approve the minutes of February 18, 2011. Mr. Larry Biddle seconded and the motion passed.**

**III. President's Report**

Dr. DeCenzo is appreciative of the remarkable student involvement and volunteer activities performed by them. Sarah Burnheimer, president of Colleges against Cancer; Heather Estep, co-coordinator for STAR; and, Chris Jones, co-coordinator for STAR, were all co-chairs for this year's Relay for Life. They were introduced and recognized for their successful leadership in

## **Regular Board of Trustees Meeting May 6, 2011**

bringing over 1,020 students/participants to the relay. As of the end of April, they had raised \$121,164. This is the largest Relay for Life in the state. Because monies are collected through the end of August, we won't know the final national ranking until later.

Community service is very important to our students. This year 13,200 hours were volunteered with 3,682 students participating. Athletics completed approximately 350 hours of community service. (This does not include the volunteer mentoring hours from the Biddle Center which are not currently available.) Dr. DeCenzo is proud of our students.

Two of the five finalists for Horry County Teacher of the Year are CCU graduates: Pam Petty received her Master's in Early Childhood Education and is teaching at Burgess Elementary School and Donna Satterley received her Master's in Education and is teaching at Waccamaw Elementary.

Dr. Barbara Buckner, Associate Provost for Assessment and Accreditation, was recognized for her six years of service to the University in the area of assessment. She has accepted a position at Columbus State University as Dean of Education. Everyone wished her success.

Dr. DeCenzo stated that every so often, a situation presents itself that reaffirms the significance and impact of a selfless act, underscoring the power of the goodness in people around us. About six weeks ago, he received a call from a man who said he had found a personal item that he hoped to return to its owner, but he was having some difficulty in his quest. Timothy Stoll, a trucker from Fort McCoy, Fla., has a regular route that runs from Savannah through Georgetown and Myrtle Beach and on to North Carolina. One day when he parked his truck behind a delivery site in Myrtle Beach, something caught his eye in the debris beside the newly surfaced lot. And there it was – the United States Military Academy West Point Class of 1950 ring, bearing the timeworn inscription of its owner, William J. Baxley Jr. Consulting the Internet, Mr. Stoll learned that Bill served in the U.S. Army. In the phone conversation, he accurately described Bill as “an American hero.” He also knew that a building on this campus – Bill Baxley Hall – had been named in the owner's honor. He said he wanted nothing in return for the recovery of the ring; he simply wanted to return it to its owner.

When he met Mr. Stoll in Murrells Inlet the following Saturday, he entrusted me with the ring, and gave him my word that he'd contact Bill's son. With the family's permission, the ring will now become part of the University's collection of memorabilia from Bill's 22-year military career, which will be housed in Bill Baxley Hall. The ring honors the man who wore it so proudly and its presence here will remind us not only of Bill's honorable service, but also of the integrity of a stranger and his act of kindness.

Dr. Judy Vogt presented an Admissions report for Fall 2011: 93% of the continuing students are registered; 2,100-2,150 new student are expected; 128 students have made deposits for the CCU/HGTC bridge program; and, 850-875 projected transfers. More than 10,000 applications were received for the new freshman class.

Dr. DeCenzo mentioned that April 12, 2011 is Tax Freedom Day in the United States. In other words, we have to work until then to pay our taxes for the year. Putting this in a university

**Regular Board of Trustees Meeting

perspective, the operating budget of \$100,800,000 costs \$276,102 a day to operate. This means that with our approved state appropriations of \$8,478,680 we can operate for 31 days or one month out of the year. The remaining 11 months of the year are our own dollars. It is prudent for us to maintain our cost containments and looking at being the most efficient.
