VIRTUAL CONSULTATIONS

Historically, faculty have cited that busy schedules, personal responsibilities, and hectic commutes/parking have made it difficult to attend face-to-face sessions or consultations. The Center for Teaching Excellence to Advance Learning (CeTEAL) is dedicated to ensuring that faculty development is accessible for all and offers individual consultations, via Skype For Business, on a variety of topics including:

- effective teaching strategies
- instructional design for in-class, hybrid, and online courses
- documenting teaching effectiveness and improvement
- integration of instructional technology
- research and scholarship activities

To schedule a virtual consultation today, please visit www.coastal.edu/ceteal. On the CeTEAL site, click “Contact Us” in the upper left web menu, and select “Make an Appointment” in the Resource Links menu on the right.

What are Faculty Saying about Virtual Consults?

“With two kids and aging parents, it is hard to fit time in my schedule to physically go to CeTEAL for a consult. **Virtual consults allow me to meet with CeTEAL staff from the comfort of my home** and I don’t have to arrange for a babysitter.”

“**Virtual consults make CeTEAL’s services more accessible to me.** As a department chair, my schedule is busy. Since my office is on the other side of campus, **this service saves me transit time and alleviates parking concerns.** I find the value of the virtual consult to be the same as a face-to-face consult. We can see and hear one another and share computer screens. Oftentimes, we collaborate on documents together as well.”

Specialties of CeTEAL Consulting Staff

Jenn Shinaberger
Director | Kearns 215E | 843-349-2737 | jshinabe@coastal.edu

Jenn Shinaberger has been in the field of faculty development for over 15 years. Contact her for help with instructional coaching, classroom observations, classroom assessment, curriculum mapping, and course design. She can also assist with writing teaching narratives, documenting teaching effectiveness, writing scholarly articles and the scholarship of teaching and learning.

Jean K. Bennett
Assistant Director | Kearns 215D | 843-349-2481 | jbennet1@coastal.edu

Jean has been in the field of education for over 30 years and specifically working with faculty for the past 20. She enjoys working with faculty one-on-one, providing ideas through brainstorming sessions, to help facilitate “aha” moments. Whether it is for your face-to-face, hybrid or online course, Jean will guide you through your questions and you will leave with results to implement in your teaching.

Matthew C. Tyler
Instructional Designer & Technologist | Kearns 215A | 843-349-2951 | mctyler@coastal.edu

Matthew is a proud alumnus of CCU, where he completed his undergraduate and graduate degrees. You may contact him regarding online course design, instructional design, instructional coaching, Microsoft Education (Office 365) products, and the integration of educational technology into face-to-face and online courses. He also serves as a nationally certified Quality Matters (QM) Master Reviewer for Online & Hybrid Courses as well a certified Microsoft Innovative Educator and Trainer to keep abreast of current research and trends in the fields of instructional design and edtech.

George H. Warriner III
Instructional Technology Trainer | Kearns 211C | 843-349-2383 | ghwarrin@coastal.edu

George is a proud alumnus of CCU, completing his undergraduate and graduate degrees. You can contact him for assistance with a variety of instructional technology tools such as Camtasia, Adobe CC, Echo360, Office365 applications, along with other technology applications to support instruction. He assists with the development and application of best practices of learning objects, audio and video recordings in conjunction with overall course design.

Elif N. Gokbel
Instructional Designer & Technologist | Kearns 215B | 843-349-2351 | egokbel@coastal.edu

You can contact Elif for assistance with the integration of educational technology in traditional, hybrid, and online courses to enhance student learning. She can assist teaching professionals in STEM fields to support the effective integration of research-based practices into their teaching. She can also help quantitative research design and the use of technologies to foster scholarly productivity including but not limited to SPSS, Mendeley, and OneNote.

Tracy Gaskin
Faculty Development Program Coordinator | Kearns 211H | 843-349-2790 | tgaskin@coastal.edu

Tracy has worked with faculty to develop online courses for 20 years. She can assist with all aspects of online course design. Tracy is the contact for scheduling sessions through CeTEAL. Contact her if you would like to present a session, schedule a session for your department, or suggest a new topic. Tracy is the contact for the CeTEAL newsletter.
