**Based on your experience, what are CCU graduates' strengths?**

Passion, Content, Collaboration

We nominated [REDACTED] for Loudoun County Public Schools New Teacher of the Year Award. She was extremely well prepared, diligent, collaborative, and invested from Day 1 in making her classroom and collaborative better. Awesome, awesome hire for us.

**Based on your experience, what are CCU graduates' weaknesses?**

Experience

[REDACTED] was a first year Science 7 teacher. She had to learn content, lean on her collaborative team for assessments, and thoughtfully approach lab and classroom management in a science classroom. She had two great teams of veterans to support her, and made some adjustments along the way.

**Are there other comments that you would like to share with the Spadoni College of Education?**

Like our graduates from James Madison University, due to the strength (and time commitment) required in your program, [REDACTED] came to us like a second year teacher. We were extremely impressed with her level of preparation at your University, and would love to establish a pipeline to our school and district with your candidates. Exceptional job on your part.
