Faculty Senate

December 2, 2020
Order of Business
4:30 p.m. virtually in Microsoft Teams
www.coastal.edu/facultysenate

I. CALL TO ORDER – Brian Bunton, Chair
   - A moment of silence for our colleague, Will Lyerly

II. ROLL CALL – Diane Fribance, Secretary

III. APPROVAL OF MINUTES – November 4, 2020

IV. CONSENT AGENDA – attached

V. PRESIDENT, PROVOST AND OTHER ADMINISTRATIVE REPORTS

VI. EXECUTIVE COMMITTEE REPORT
   A. Undergraduate Administrative Actions 7-9 were generated and sent for approval from the November 4, 2020 meeting. Refer to the November 4, 2020 Faculty Senate Order of Business for complete details.
      AA-7: Approval of all items on the November 4, 2020 Consent Agenda.
      AA-8: Proposal to remove the course objectives requirement in syllabi.
      AA-9: Proposal to amend the GPA requirements for Summa Cum Laude designation from 4.0 to 3.95.
   B. Memoranda 4-5 were generated and approved from the November 4, 2020 meeting.
      Memo 1: Formally endorsing Faculty Senator Renee Smith for the position of Faculty Ombuds.
      Memo 2: Endorsing the recommendations from the Access, Inclusion and Diversity Council.
   C. AAUP CCU Resolution

VII. COMMITTEE REPORTS

VIII. OLD BUSINESS

IX. NEW BUSINESS
A. Academic Affairs Committee (moved and seconded in committee)

1. **Motion:** Proposal for change(s) in an undergraduate program – Engineering Science, B.S.

**Engineering Science, B.S.** (Form B – ID# 64)

**Engineering Science, B.S.**

The Bachelor of Science in Engineering Science Program trains future leaders who will develop and implement sustainable solutions to global challenges. It does so by employing high quality teaching and engaged learning, creative research, community outreach, entrepreneurship and innovation in engineering sciences and design.

Engineering science is a broad-based, interdisciplinary area of study that integrates scientific and mathematical concepts, and engineering principles with the arts, humanities and social sciences, to sustainably solve contemporary challenges and advance the well-being of global society. Engineering science is ideal preparation for graduates who will lead national and international multidisciplinary teams on a diverse array of engineering projects in industry as well as through entrepreneurial endeavors. Engineering science is also an excellent background for those who wish to pursue careers in other professions such as law, education, medicine, business, politics and public service.

At Coastal Carolina University, engineering science is offered as an undergraduate engineering degree through the Gupta College of Science. The engineering science program is a four-year curriculum that includes a general education component, foundational mathematics and science and engineering courses, two-course minor cornerstone design sequence and an area of concentration. The engineering science program currently offers a physics concentration; electrical, civil and other concentrations are being developed. All areas of concentration culminate in a two-term major capstone design experience. Upon completing all requirements, students are awarded a Bachelor of Science (B.S.) in engineering science with their selected area of concentration.

The vision of the engineering science program is to:

- Increase participation of underrepresented and minority groups and address the persistent degree attainment gap in engineering
- Create a learning and professional environment where diversity is celebrated as seminal to program success and where all students, particularly underrepresented and minority groups, thrive and excel
Develop future leaders who are knowledgeable and are able to apply scientific and engineering principles to impact the well-being of the global society and the environment.

**Program Educational Objectives**

The engineering science program prepares undergraduate students for employment, entrepreneurship and/or advanced studies. The program provides students with a broad education that emphasizes excellence in the application of scientific and engineering principles to sustainably solve societal grand challenges. The program’s three primary constituencies are: industry, alumni and academia.

Within 3-5 years of graduation, graduates are expected to:

- Engage in ongoing professional development activities including but not limited to graduate study, leadership training, certification and licensure
- Foster future generations of engineers through mentoring, service and outreach
- Assume leadership roles in professional and/or community life
- Be productive, responsible, healthy citizens with a global perspective.

**Student Learning Outcomes**

After completing the program in engineering science, students will demonstrate:

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science and mathematics
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety and welfare, as well as global, cultural, social, environmental and economic factors
- An ability to communicate effectively with a range of audiences
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

**Degree Requirements (129 Credits)**

**Core Curriculum Requirements**
Core Curriculum (38-40 Total Credit Hours)

Graduation Requirements

- Graduation Requirements (3-6+ Credits) *

Foundation Courses (32-43 Credits)

  * Complete the following courses:
    - ENGR 101 - Inquiring Minds Want to Design: An Introduction to Engineering (3 credits) *
    - ENGR 102 - Engineering Graphics Communication (3 credits)
    - PHYS 211 - Essentials of Physics I (3 credits) AND
    - PHYS 211L - Essentials of Physics I Laboratory (1 credit)
    - PHYS 214 - Fundamentals of Physics II (3 credits) AND
    - PHYS 214L - Fundamentals of Physics II Laboratory (1 credit)
    - CHEM 111 - General Chemistry I (3 credits) * AND
    - CHEM 111L - General Chemistry Laboratory I (1 credit) *
    - MATH 160 - Calculus I (4 credits) * OR
    - MATH 160A - Calculus I A (2 credits) AND
    - MATH 160B - Calculus I B (2 credits)
    - MATH 161 - Calculus II (4 credits) OR
    - MATH 161A - Calculus II A (2 credits) AND
    - MATH 161B - Calculus II B (2 credits)
    - MATH 260 - Calculus III (4 credits)
    - MATH 320 - Elementary Differential Equations (3 credits)
    - PHIL 102 - Introduction to Ethics (3 credits) *
    - CSCI 135 - Introduction to Programming (3 credits)
    - STAT 201 - Elementary Statistics (3 credits) *AND
    - STAT 201L - Elementary Statistics Computer Laboratory (1 credit) *

  * Course credit hours only count once toward the total university graduation credit hour requirements. Click on Credit Sharing for more information.

Major Requirements (52 Credits) Complete

the following courses:

  - ENGR 199 - Cohort Grand Challenge I (1 credit)
  - ENGR 299 - Cohort Grand Challenge II (1 credit)
  - ENGR 201 - Engineering Problem Solving (3 credits)
  - ENGR 203 – Engineering Professionalism and Pathways (3 credits)
  - ENGR 234 - Engineering Mechanics I: Statics (3 credits)
  - ENGR 244 - Engineering Mechanics II: Dynamics (3 credits)
  - ENGR 235 - Electric Circuits (3 credits)
  - ENGR 250 - Communicating STEM (3 credits)
  - ENGR 302 - Materials Science for Engineers (3 credits)
  - ENGR 323 - Engineering Thermodynamics and Heat Transfer (3 credits)
ENGR 333 - Engineering Fluids Mechanics (3 credits)
ENGR 399 Q - Integrated Science and Design (2 credits)
ENGR 495 - Engineering Internship (1-10 credits)
ENGR 499 Q - Senior Design (2 credits)

Professional Enhancement Electives: Complete 7 credit hours or equivalent 350 working hours in any of the following (7 Credits): Complete 3 credits of ENGR 495 and an additional 4 credits from any of the following: ENGR 397, ENGR 495, UNIV 495, and/or (with department approval) CCU Education Abroad, CCU International Internship, Co-operative Education, Service Learning, Graduate Course, Professional Certification, Professional Course. (7 Credits)

- ENGR 397 - Independent Research (1-7 credits)
- ENGR 495 - Engineering Internship (1-10 credits)
- UNIV 495 Q - Internship (1 to 12 credits)

AND/OR any of the below, with department approval:

- CCU Education Abroad
- CCU International Internship
- Co-operative Education
- Service Learning
- Graduate Course
- Professional Certification
- Professional Course

Select ONE Program Concentration and complete the associated three (3) required and one (1) elective course:

Physics Concentration (12 Credits)

Complete the following required courses in the Physics Concentration (9 Credits):

- PHYS 310 - Mathematical Methods for Physicists and Engineers (3 credits)
- PHYS 351 - Computational Methods for Physicists and Engineers (3 credits)
- PHYS 352 - Experimental Methods for Physicists and Engineers (3 credits)

Choose one from the following (3 Credits):

- ENGR 315 - Electric Power and Renewable Energy (3 credits)
- ENGR 321 - Electronics (3 credits)
- ENGR 450 - Radiation Detection and Measurement (3 credits)

Electives (0 Credits)

Total Credits Required: 129

5. **Motion:** Proposal to modify the language regarding Transitional Studies in the undergraduate and graduate catalogs

   [Transitional Studies Motion]

   B. Graduate Council (moved and seconded in committee)

1. **Motion:** Proposal for change(s) in a graduate program – Master of Business Administration, M.B.A.
Master of Business Administration (M.B.A.) (Form B – ID# 96)

Degree Requirements
The Master of Business Administration requires:

- Successful completion of an approved program of study with a minimum of 30 graduate credit hours;
- A minimum grade point average of 3.0 (B) on all course work;
- A maximum of two (2) classes may be completed below the grade of ‘B’ before dismissal from the program. Automatic dismissal will result for a grade of ‘F’ in any course.
- Completion of all requirements for the degree during a six-year period; and
- A record of professional performance and integrity during all phases of the program of study.

Non-Degree Students
Students classified as non-degree graduate students may take no more than 12 credit hours of graduate study in MBA-related coursework. Non-degree student registrations must be approved by the College of Business Graduate Director.

Transfer Credits
With approval from the College of Business Graduate Director, a maximum of six (6) transfer credit hours from an AACSB accredited institution may be applied to a student’s program of study. Exceptions may be made by the Graduate Director. Under the terms of double degree agreements or other consortia agreements, additional coursework up to a total of 12 credit hours may be transferred to complete the University’s MBA degree requirements. All transfer coursework must be completed with a minimum grade of ‘B’.

Degree Requirements (30 Credit Hours)
The MBA degree at Coastal Carolina University requires 30 graduate credit hours for completion consisting of 21 core credits and 9 hours of electives.

Required Courses (21 Credit hours)
- MBA 605 - Operations and Global Supply Chain Management (3 credits)
- MBA 615 - Leadership (3 credits)
- MBA 620 - Financial Management (3 credits)
- MBA 624 - Managerial Economics (3 credits)
- MBA 631 - Marketing Strategy (3 credits)
- MBA 650 - Managerial Responsibility and the Law (3 credits)
- MBA 690 - Global Strategy (3 credits)

Electives (9 Credit hours)
The nine (9) elective credit hours must come from the approved courses: MBA 521, MBA 522, CBAD or MBA courses at the 600 level or above, ACCT 534, ACCT 631, ACCT 638, ACCT 675, IST 660, IST 670, IST 678, SPT 510, SPT 515, SPT 530, SPT 550, and SPT 565, CMWS
603, CMWS 626, CMWS 613 and CMWS 623. Other courses may be approved as determined by the College of Business Graduate Director.

Student may opt to take the approved above elective courses or select a concentration:

**Coastal Marine and Wetland Studies Track (9 Credit Hours)**
Choose three (3) courses of the following:
- CMWS 603 – Coastal and Wetland Policy Management (3 credits)
- CMWS 626 – Economy and Sustainability of Coastalines and the Coastal Ocean (3 credits)
- CMWS 613 – Environmental Law (3 credits)
- CMWS 623 – Corporate Environmental Sustainability (3 credits)

**Commercial and Investment Real Estate Track (9 Credit Hours)**
- MBA 646 - Value Management (3 credits)
- MBA 647 - Real Estate Market Analysis (3 credits)
- MBA 648 - Real Estate Seminar (3 credits)

**Healthcare Administration Track (9 Credit Hours)**
**Required Courses**
- MBA 670 - The US Healthcare System (3 credits)
- MBA 674 - Healthcare Financial Decision Making (3 credits)

**Elective Courses**
Choose one course from the following:
- MBA 671 - Healthcare Strategy (3 credits)
- MBA 672 - Healthcare Quality Management (3 credits)
- MBA 673 - Information Systems in Healthcare (3 credits)

**Nonprofit Administration Track (9 Credit Hours)**
**Required Courses:**
- MBA 655 - Sustainability and Social Responsibility (3 credits)
- MBA 521 - Financial Governance for Non-Profit Board Members (3 credits)
- MBA 522 - Grant Writing for Non-Profit Organizations (3 credits)

**Total Graduate Credits: 30 Credit Hours**
