- Brooks Stadium Expansion
- Track/Soccer/Sand Volleyball Complexes (off map)
Potential Track and Soccer Complex Site Fit at East Campus

- Track
- Outdoor Sand Volleyball Complex
- Soccer Complex
Campus Circulation Update

1. Master plan proposal to shift University Boulevard / 544 alignment south to allow potential future expansion of football area requires reconfiguration of existing soccer field.

2. New connections to 544 at north end of main campus have been implemented. The proposed connection at the north end of the campus to 501 has not been implemented due to neighborhood resistance, but remains part of the long term mobility vision for the campus (will require ACOE coordination).

3. Conversion of the section of Chanticleer Drive north of the Wall Building to pedestrian, transit, service, emergency vehicle use only to enhance north-south pedestrian connections and safety between student housing and core campus facilities.
Parking Update

CCU is considering the following parking policies to manage parking demand on main campus:

- Students living in University Place incentivized to leave cars at University Place through tiered parking prices (higher on main campus).
- Shuttle offered from University Place and fire tower parking lot. (Fire tower parking lot generally underutilized except during major events.)
- Address adequate service parking on East Campus after construction of the Track, Soccer and Sand Volleyball Complexes.

In near term, CCU to manage demand through policy adjustments and use of surface lots.

Consideration of a parking deck on the main campus to accommodate additional student parking and campus events.
2011 Existing Parking
