   a. Due to technical problems with the Graduate Council online submission system, several items were approved at the last minute, resulting in some duplication on the agenda. A motion was made and seconded to remove Item 63, because it was duplicate of Item 66, and to remove Item 74 as a duplicate of Item 71. Later, it was noted that, though similar, Item 74 was not a duplicate of Item 71 and a motion was made and seconded to reinstate Item 74. Thus, only item 63 was removed from the agenda.

7. Library privileges discussed and students currently need to be registered for use of all library services. This causes an issue for Senior Citizens who can’t register until day before classes start. Discussion and decision that this is a larger issue to be addressed with Provost.
