

LiveWell Newsletter

Chant Safe was created by students for students as a one stop shop for important information about safety and resources in our community.

The website contains information on:

- Pedestrian/Bike Safety
- Personal Safety
- Bias Incident Reporting
- Interpersonal Violence
- Severe Weather
- and more!

There are also resources for students about what to do in crisis situations. Please visit coastal.edu/chantsafe/ for more information about staying safe in our community

You might have noticed the Heads Up logos around campus. They are there to remind you to look up at busy crosswalks and intersections and to stay safe! Go to the Chant Safe website for more information on pedestrian and bike safety.
