Old Business

Follow up discussion on the following items:

- Suggestion: “Can the Wall Building stop be moved to the traffic lane that is in front of Wall, adjacent to Chanticleer Drive? It would make this shuttle stop similar to the one at the Student Center. Over time could all shuttle stops not be on the roadways?”

  C. Madden was not able to attend today’s meeting so we will address at next meeting.

- Suggestion: “Good morning. There have been rumors circulating that the parking lot at Brittain Hall is going to receive gates to keep the students out (like at Singleton). This will not include the Wall F/S parking lot. This does not make any sense. Instead of installing one at the connection between Wall and Brittain Hall, put the third one at the entrance to Wall. The problem with student parking will be solved in this area, which is rampant. Thank you! Have a great day!”

  J. Hawkins received the following reply from Phillip Moore, Major of Operations, Public Safety: “There will be three gates. Entrance only gate at the entrance to S lot and two exit gates in R lot. Hope this answers your question.”

Web Page Comments:

Suggestion: “I have had several outside calls voice their opinion about our "hold" music. The music currently playing is not representative of the University. For example, Athletics has Athletic highlights of our achievements. Is it possible to do the same for the University, even if we recognize our academics? We have a new commercial with the message of "We are Coastal." I think the wordage of this commercial would be great for our hold option for our students, parents and other outside phone calls.”

  J. Davis reported there are plans to review the hold music this summer when things slow down a bit.

Suggestion: “The elevator music could use some updating. When you are on hold it would help to hear something pleasant.”

  Same answer as above.
