The Undergraduate Research Competition is a spring tradition at Coastal Carolina University. This year, students and faculty mentors from 31 different majors and all university colleges have worked to produce 124 presentations, including 70 oral presentations and 54 poster presentations. These are the results of months, and in some cases, years of effort on undergraduate research projects, and demonstrate the strength of experiential learning at CCU. Congratulations, presenters!

The Digital Global: a Symposium
Wednesday, April 11, 2018, 9.00-5.30 pm, Edwards 106

Organized by AHGEP (Arts and Humanities Global Experience Program) and hosted by the Edwards Digital Commons for Humanities and Arts

How do global languages and dialects influence the impacts of social media? How might VR and other immersive technologies reflect or deflect differing cultural perspectives? How does globalized "fake news" impact political processes? How can the digital convey the culture and history of local populations, from foodways to storytelling?

This symposium will feature student and faculty panels and some streaming live digital presentations from Fulbright scholars working at the intersection of digital culture and globalization. The QEP initiatives of the Digital Commons for Humanities and Arts, AGHEP (Arts and Humanities Global Experience), and the Athenaeum Press will present workshops and student research on issues at the intersection of globalization and digital culture and production.

Schedule:
All sessions in Edwards 106, Digital Commons

10.00 am: Livestreaming session: Gabriel Menotti, “3D Replication Technologies – Digital Artifacts for the Radical Mediation of History” (Independent curator and lecturer at the Federal University of Espírito Santo, Brazil; Fulbright Visiting Fellow at the Center for 21st Century Studies at the University of Wisconsin-Milwaukee)

11:00 am: Livestreaming session: Conrad Moriarty-Cole, “Financial Capital: the Nexus of Digital Culture and Globalisation” (Lecturer, Goldsmiths College, University of London)

1:00 pm: Livestreaming session: Lee Mackinnon (London College of Communication; Goldsmiths College, University of London)
