The Tourism Economy Study: CCU Lodging Update, Dec. 8, 2016

Current Performance Estimates

Hotel, Condo-Hotel and Campsite Properties

Preliminary results from Coastal Carolina University’s voluntary sample of hotel, condo-hotel and campsite (HC-HC) properties along the Grand Strand during the week of Nov. 27-Dec. 3, 2016, indicates that the midweek occupancy rate averaged 22.3 percent, up 1.4 occupancy points or 6.5 percent compared to the equivalent week of 2015. During the Friday-Saturday night period, the occupancy rate averaged 36.2 percent, up 2.1 occupancy points or 6.1 percent compared to the equivalent weekend last year. The average daily rate (ADR) was up 0.7 percent during the midweek period and up 2.6 percent during the weekend compared with last year. Consequently, HC-HC occupancy for the week overall was up 1.5 occupancy points or 6.3 percent, and revenue per available room (RevPAR) was up 7.8 percent compared with the equivalent week of 2015.

VRPs

Based on the Brittain Center’s observations of random samples of internet websites of vacation rental properties (VRPs) in the coastal sections of Horry and Georgetown counties (318 of the 3,135 units) for which complete data are publicly available, 59.6 percent were reserved or blocked from nightly rentals during the nights of Nov. 26-Dec. 2, 2016. The level of reservations was up 19.8 occupancy points or 49.2 percent compared with the equivalent week of 2015. For the nights of Dec. 3-9, 2016, 37.8 percent of the VRPs were reserved or blocked from reservation. The level of reservations was up 4.9 occupancy points or 14.9 percent compared with the equivalent week of 2015.

Six-Week Average Performance

Preliminary results indicate that during the nights of Oct. 23-Dec. 3, 2016, 34.2 percent of the lodging properties in the Brittain Center’s voluntary sample of HC-HC properties located along the Grand Strand were occupied, which was up 1.2 occupancy points or 3.8 percent compared with the equivalent weeks of 2015. The average daily rate for these properties was up 7.3 percent compared with the equivalent weeks last year, leaving average RevPAR up 11.3 percent compared with the equivalent period last year. During the same period in 2016, 63.6 percent of the VRP bedrooms in the Center’s random sample of Horry County VRPs were reserved or blocked from nightly rentals, up 24.4 occupancy points or 62.6 percent compared with the equivalent weeks last year. Advertised prices for this segment were up 5.8 percent compared with the equivalent weeks last year, which would drive revenue per available bedroom up 72.2 percent compared with the equivalent period last year.

Forecast and Analysis

According to weather.com at the time of this writing, the forecast for the weekend of Dec. 10-11, 2016, calls for a temperature of 49 degrees and 60 degrees, and a 0 and 20 percent chance of precipitation, respectively. The Brittain Center predicts that average occupancy for its sample of HC-HC properties may be near or above 31 percent for the nights of Dec. 9-10. Based on this week’s observations by Center researchers of 318 websites of VRPs available to rent in Horry and Georgetown counties, 33 percent are reserved for the week of Dec. 10-16, 2016. VRP reservations in Horry and Georgetown counties for that week are down 0.9 occupancy point or 2.7 percent compared with the same week of 2015.

Additional Research Notes

The Brittain Center’s preliminary sample of 27 HC-HC properties reporting for the week of Nov. 27-Dec. 3, 2016, consisted of 12 hotels (all but five are oceanfront/view, and five are brand affiliated), 14 condo-hotels (all are oceanfront/view), and one campground resort property. The results for the current moving six-week period are based on an average sample size of 9,111 units per week average.
