Current Performance Estimates

Hotel, Condo-Hotel and Campsite Properties

Preliminary results from Coastal Carolina University’s voluntary sample of hotel, condo-hotel and campsite (HC-HC) properties along the Grand Strand during the week of Feb. 26-March 4, 2017, indicates that the midweek occupancy rate averaged 36.4 percent, up 3.3 occupancy points or 9.9 percent compared to the equivalent week of 2016. During the Friday-Saturday night period, the occupancy rate averaged 76.5 percent, up 7.9 occupancy points or 11.5 percent compared to the equivalent weekend last year. The average daily rate (ADR) was down 0.6 percent during the midweek period but up 17.2 percent during the weekend compared with last year. Consequently, HC-HC occupancy for the week overall was up 4.4 occupancy points or 10.2 percent, and revenue per available room (RevPAR) was up 18.5 percent compared with the equivalent week of 2016.

VRPs

Based on the Brittain Center’s observations of random samples of internet websites of vacation rental properties (VRPs) in the coastal sections of Horry and Georgetown counties (318 of the 3,135 units) for which complete data are publicly available, 35.4 percent were reserved or blocked from nightly rentals during the nights of Feb. 25-March 3, 2017. The level of reservations was down 17 occupancy points or 32.5 percent compared with the equivalent week of 2016. For the nights of March 4-10, 2017, 42.4 percent of the VRPs were reserved or blocked from reservation. The level of reservations was down 11.9 occupancy points or 22 percent compared with the equivalent week of 2016.

Six-Week Average Performance

Preliminary results indicate that during the nights of Jan. 15-Feb. 25, 2017, 37.4 percent of the lodging properties in the Brittain Center’s voluntary sample of HC-HC properties located along the Grand Strand were occupied, which was up 1.9 occupancy point or 5.5 percent compared with the equivalent weeks of 2016. The average daily rate for these properties was up 7.9 percent compared with the equivalent weeks of 2016, driving average RevPAR up 13.4 percent compared with the equivalent period of 2016. During the same period in 2017, 40.4 percent of the VRP bedrooms in the Center’s random sample of Horry County VRPs were reserved or blocked from nightly rentals, down 2.5 occupancy points or 5.8 percent compared with the equivalent weeks of 2016. Advertised prices for this segment were up 6.6 percent compared with the equivalent weeks of 2016, which would drive revenue per available bedroom up 0.4 percent compared with the equivalent weeks of 2016.

Forecast and Analysis

According to weather.com at the time of this writing, the forecast for the weekend of March 11-12, 2017, calls for a high temperature of 56 degrees and 44 degrees, and a 0 percent and 100 percent chance of precipitation, respectively. The Brittain Center predicts that average occupancy for its sample of HC-HC properties may be near or above 60 percent for the nights of March 10-11, 2017. Based on this week’s observations by Center researchers of 318 websites of VRPs available to rent in Horry and Georgetown counties, 49.8 percent are reserved for the week of March 11-17, 2017. VRP reservations in Horry and Georgetown counties for that week are down 9 occupancy points or 15.2 percent compared with the same week of 2016.

Additional Research Notes

The Brittain Center’s preliminary sample of 27 HC-HC properties reporting for the week of Feb. 26-March 4, 2017, consisted of 12 hotels (all but five are oceanfront/view, and five are brand affiliated), 14 condo-hotels (all are oceanfront/view), and one campground resort property. The results for the current moving six-week period are based on an average sample size of 9,096 units per week average.
