## The Tourism Economy Study: CCU Lodging Update, Sept. 3, 2020 (continued)

### Forecasts and Analysis

The center's researchers are monitoring the percentage of VRPs blocked as reserved on the internet between Aug. 22, to Nov. 13, 2020 (above). The final results four days in advance of the date of arrival for each of the equivalent rental weeks in 2019 are also shown. Average occupancy and reservations results are available graphically at the center's [research website](#).

According to weather.com at the time of this writing, the weather forecast for the weekend of Sept. 5-6, 2020, calls for a high temperature of 87 degrees and 83 degrees, respectively, and 20 percent chance of precipitation on both days. The Brittain Center now predicts that average occupancy for its sample of HC-HC properties and may be near or above 85 percent for the Memorial Day weekend of Sept. 4-6, 2020.
