The Tourism Economy Study: CCU Lodging Update, Nov. 16, 2017

Current Performance Estimates

Hotel, Condo-Hotel and Campsite Properties

Preliminary results from Coastal Carolina University’s voluntary sample of hotel, condo-hotel and campsite (HC-HC) properties along the Grand Strand during the week of Nov. 5-11, 2017, indicates that the midweek occupancy rate averaged 33.8 percent, up 6.1 occupancy points or 22.1 percent compared to the equivalent week of 2016. During the Friday-Saturday night period, the occupancy rate averaged 55.5 percent, down 6 occupancy points or 9.8 percent compared to the equivalent weekend last year. The average daily rate (ADR) was up 3.7 percent during the midweek period but up 2.4 percent during the weekend compared with last year. Consequently, HC-HC occupancy for the week overall was up 2.6 occupancy points or 6.8 percent, and revenue per available room (RevPAR) was up 9.5 percent compared with the equivalent week of 2016.

VRPs

Based on the Brittain Center’s observations of random samples of internet websites of vacation rental properties (VRPs) in the coastal sections of Horry and Georgetown counties (318 of the 3,135 units) for which complete data are publicly available, 43.1 percent were reserved or blocked from rental during the week of Nov. 4-10, 2017. The level of reservations was down 13.8 occupancy points or 24.2 percent compared with the equivalent week of 2016. For the nights of Nov. 11-17, 2017, 37.1 percent of the VRPs were reserved or blocked from reservation. The level of reservations was down 20.2 occupancy points or 35.2 percent compared with the equivalent week of 2016.

Six-Week Average Performance

Preliminary results indicate that during the nights of Oct. 1-Nov. 11, 2017, 49.9 percent of the lodging properties in the Brittain Center’s voluntary sample of HC-HC properties located along the Grand Strand were occupied, which was up 14.6 occupancy points or 41.3 percent compared with the equivalent weeks of 2016. The average daily rate for these properties was up 5.8 percent compared with the equivalent weeks of 2016, raising average RevPAR up 43.9 percent compared with the equivalent period of 2016. During the same period in 2017, 49.1 percent of the VRP bedrooms in the Center’s random sample of Horry County VRPs were reserved or blocked from weekly rentals, down 0.2 occupancy point or 0.4 percent compared with the equivalent weeks of 2016. Average advertised price for this segment was down 1.6 percent compared with last year, which would leave revenue per available bedroom down 2 percent compared with the equivalent weeks of 2016.

Forecast and Analysis

According to weather.com at the time of this writing, the forecast for the weekend of Nov. 18-19, 2017, calls for a high temperature of 72 degrees and 61 degrees, and a 10 percent and 20 percent chance of precipitation, respectively. The Brittain Center predicts that average occupancy for its sample of HC-HC properties may be near or above 45 percent for the nights of Nov. 17-18, 2017. Based on this week’s observations by Center researchers of 318 websites of VRPs available to rent in Horry and Georgetown counties, 58.3 percent are reserved for the week of Nov. 18-24, 2017, down 2.3 occupancy points or 3.9 percent compared with the equivalent week of 2016.

Additional Research Notes

The Brittain Center’s preliminary sample of 22 HC-HC properties reporting for the week of Nov. 5-11, 2017, consisted of 9 hotels (all but five are oceanfront/view, and four are brand affiliated), 12 condo-hotels (all are oceanfront/view), and one campground resort property. The results for the current moving six-week period are based on an average sample size of 8,098 units per week average.
