Students will learn the art of character and monologue development, how to use proven acting techniques, stage movement and stage combat.

Participants will have a rare opportunity to learn about the technical aspects of film acting as they actually work in front of the camera in Coastal Carolina University’s television studio.

Theater games, improvisation, relaxation techniques, an introduction to musical theater plus much more will only be part of the fun! You will not believe how much you will learn in 12 days!

Young actors and rising thespians will enjoy a super program of acting skills development in the summer of 2014. A staff of professional educators and trained, accomplished actors will direct students in the techniques of acting.

A performance exhibition will be held at 4 p.m. June 27 in Wheelwright Auditorium. Parents, family and friends of the students are invited to attend.
