Vice President & Chief Financial Officer Stacie Bowie presented a brief capital projects and financial update.

Bowie stated that Phase II (Buildings 3 & 4) of the new Student Housing Construction is scheduled to wrap up in May, with plenty of time remaining before students begin arriving in August. Also on track for a May completion is Science Annex II.

Ms. Bowie then referenced the Revenue & Expense Projection spreadsheets dated January 31, 2016. She explained that Coastal has additional tuition revenue of $3.3M. The University is spending $3M in additional operating expenses. CCU has more students; therefore, more temporary faculty had to be hired to cover the classes. Associated with that comes an increase of fringe benefits. When the budget was set, we did it a little differently than in years past. Where before we assumed everyone would be hired, faculty and staff, we would be under budget in one line item, and then over budget if we had to go hire temporary faculty or staff to cover if there were failed searches. Instead, this year, we assumed an amount of attrition in faculty and staff lines, and then if more students showed up and more revenue was needed for additional faculty and staff, then we would let those two off-set each other. We are spot on with regard to our reserve contingency to move forward to the next year. We have 1.9% set aside.
As there was no further business, Johnson moved to adjourn the meeting and Spivey seconded. The meeting adjourned.

Respectfully submitted,
