

## **BROOKS STADIUM ADDITIONS**

The University recently accepted an offer to participate as an active member in the Sun Belt Conference. Upon this acceptance and to meet NCAA Football Bowl Subdivision requirements an addition to the seating capacity for Brooks Stadium is needed. The majority of these additions will take place on the west stands as the University plans to increase seating capacity for spectators. This will include a suite level for this side of the stadium and an addition to fan related amenities throughout the stadium including restrooms, concessions and ADA improvements to ensure compliance standards.

### **Project Budget**

38,000,000

### **Estimated Time Line:**

#### **Estimated Start Date**

January 16, 2017

#### **Estimated Substantial Completion Date**

January 16, 2018

#### **Estimated Completion Date**

March 2, 2018

### **Status of Project**

**November 4, 2015**      **State approval process complete for Phase I Design.**

**December 16, 2015**      **Architect for project, Stubbs Muldrow Herin  
Architects with Heery International.**
