

Cognate Requirements (12 Credits)

Cognate courses are upper-level courses numbered 300 or 400 in disciplines other than the student's major, but that support the major. [Upper-level courses taken while enrolled in a CCU approved study abroad program may also count toward the cognate requirement.](#) Cognate courses should be chosen in consultation with the student's academic adviser. Alternatively, history majors may choose a minor to replace the cognate requirement. Requirements for the minor are set by the minor department. The cognate requirement is subsumed by the minor.
