SAFETY PHONE AWARENESS

With certain buildings on campus you may have faced issues with insufficient cell phone reception due to the structure of the building. Inadequate cell service can become an issue should an emergency occur. Here are two options available if faced with an emergency:

- Wi- Fi calling
- Safety phones located through the building

COASTAL CAROLINA UNIVERSITY

Get started with Wi-Fi Calling

First, see if your cellular provider offers Wi-Fi Calling and if your device is compatible. Information from some common providers is located on the next slide or can be found at the link listed below; please note that the most up-to-date information can be found on the websites of the respective providers.

SAFETY PHONES

Safety Phones are located in multiple buildings throughout campus.

These phones are ONLY CAPABLE of dialing out to these two contacts:

1. CCU Public Safety Emergency (Preferred)

2. Horry County Emergency
   Make sure to give address of building you are calling from

These phones cannot be used for any other function
