Elective, Cognate, or Minor Class	**3**	Elective, Cognate, or Minor Class	**3**			
Elective, Cognate, or Minor Class	**3**	Elective, Cognate, or Minor Class	3			
Elective, Cognate, or Minor Class	3					
Totals	12		12			27
TOTAL						120

* Placement in Math is pre-determined and you should consult your Program Evaluation or academic advisor for more information. Students who place into STAT 201/L can simply replace the other 3 credits with a course for elective, cognate, or minor credit.

** All of these are required courses for the major, but do not need to be taken in any particular sequence. You should complete these courses during sophomore year, taking one of them during Fall semester of Year 2 and the other two during Spring semester of Year 2.

*** INTEL 494, the Capstone course for the major, can only be taken if you have completed INTEL 310, INTEL 311, and INTEL 312, as well as 90 hours of total coursework. It can be taken in either the Fall or Spring semester of your senior year. If you take it in the Fall, you should take your final class in Regional Focus in the Spring.
